DWAFI4510-2 SMEG 45CM FULLY-INTEGRATED DISHWASHER

SWING WASH SYSTEM

Innovative oscillation improves wash performance, ensuring optimum water coverage to the tank via two unique spray arms. The longer arm (green) swings at 75 degrees right and left while the shorter arm (grey) spins freely, performing a 360 degree rotation. In combination these arms provide maximum wash coverage.

5-STAGE FILTRATION SYSTEM

The ultimate dishwasher filtration system maintains a high quality wash by trapping food, thus preventing it from entering the wash system.

ACTIVE ACQUASTOP

Active Acquastop electronically determines when and how much water to let into the dishwasher, automatically controlling the water feed at the tap. It's a major advantage of a Smeg dishwasher, because there is no water in the hose and therefore no building water pressure, where problems most often occur. Active Acquastop is one of five distinctive water safety and flood prevention features in all Smeg dishwashers.
