## IMPORTANT INFORMATION THAT MAY IMPACT YOUR MANUFACTURER'S WARRANTY

Adherence to the directions for use in this manual is extremely important for health and safety. Failure to strictly adhere to the requirements in this manual may result in personal injury, property damage and affect your ability to make a claim under the AEG manufacturer's warranty provided with your product. Products must be used, installed and operated in accordance with this manual. You may not be able to claim on the AEG manufacturer's warranty in the event that your product fault is due to failure to adhere to this manual.

## FOR PERFECT RESULTS

Thank you for choosing this AEG product. We have created it to give you impeccable performance for many years, with innovative technologies that help make life simpler features you might not find on ordinary appliances. Please spend a few minutes reading to get the very best from it.

## CUSTOMER CARE AND SERVICE

Always use original spare parts.

When contacting our Authorised Service Centre, ensure that you have the following data available: Model, PNC, Serial Number.

The information can be found on the rating plate.

 Warning / Caution-Safety information

 General information and tips

 Environmental information

Subject to change without notice.

### 1. SAFETY INFORMATION

Before the installation and use of the appliance, carefully read the supplied instructions. The manufacturer is not responsible if an incorrect installation and use causes injuries and damage. Always keep the instructions with the appliance for future reference.

- Read the supplied instructions.

**Warning:** Risk of fire / Flammable materials.

The appliance contains flammable gas, propane (R290), a gas with a high level of environmental compatibility. Keep fire and ignition sources away from the appliance. Be careful not to cause damage to the refrigerant circuit containing propane.

## 1.1 Children and vulnerable people safety

**WARNING!**

Risk of suffocation, injury or permanent disability.

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved.
- Children between 3 and 8 years of age and persons with very extensive and complex disabilities shall be kept away from the appliance unless continuously supervised.
- Children of less than 3 years of age should be kept away from the appliance unless continuously supervised.
- Do not let children play with the appliance.
- Keep all packaging away from children and dispose of it appropriately.
- Keep detergents away from children.
- Keep children and pets away from the appliance when the door is open.
- If the appliance has a child safety device, it should be activated.
- Children shall not carry out cleaning and user maintenance of the appliance without supervision.

## 1.2 General Safety

- Do not change the specification of this appliance.

- If the tumble dryer is put on top of a washing machine, use the stacking kit. The stacking kit, available from your authorized vendor, can be used only with the appliance specified in the instructions supplied with the accessory. Read it carefully before installation (refer to the Installation leaflet).
- The appliance can be installed as freestanding or below a kitchen counter with correct space (refer to the Installation leaflet).
- Do not install the appliance behind a lockable door, a sliding door or a door with a hinge on the opposite side, that would prevent the appliance door from being fully open.
- The ventilation opening in the base must not be covered by a carpet, mat, or any floor covering.
- **WARNING:** The appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by a utility.
- Connect the mains plug to the mains socket only at the end of the installation process. Make sure that the mains plug is accessible after installation.
- Ensure good air ventilation in the room where the appliance is installed to avoid the backflow of unwanted gases into the room from appliances burning gas or other fuels, including open fires.
- **WARNING:** Do not install the appliance in an environment with no air exchange.  
The appliance contains flammable gas, propane (R290), a gas with a high level of environmental compatibility. Keep fire and ignition sources away from the appliance. Be careful not to cause damage to the refrigerant circuit containing propane.
- **WARNING:** In the appliance enclosure or in the built-in structure, keep ventilation opening clear of obstruction.
- **WARNING:** Do not damage the refrigerant circuit.

- If the mains power supply cable is damaged, it must be replaced by the manufacturer, its Authorised Service Centre or similarly qualified persons to avoid an electrical hazard.
- Do not exceed the maximum load of 9 kg (refer to the "Program chart" chapter).
- Do not use the appliance if items have been soiled with industrial chemicals.
- Wipe away lint or packaging debris that has accumulated around the appliance.
- Do not run the appliance without a filter. Clean the lint filter before or after each use.
- Do not dry unwashed items in the tumble dryer.
- Items that have been soiled with substances such as cooking oil, acetone, alcohol, petrol, kerosene, spot removers, turpentine, waxes and wax removers should be washed in hot water with an extra amount of detergent before being dried in the tumble dryer.
- Items such as foam rubber (latex foam), shower caps, waterproof textiles, rubber backed articles and clothes or pillows fitted with foam rubber pads should not be dried in the tumble dryer.
- Fabric softeners, or similar products, should only be used as specified by the product manufacturer's instructions.
- Oil-affected items can ignite spontaneously, especially when exposed to heat sources such as in a tumble dryer. The items become warm, causing an oxidation reaction in the oil. Oxidation creates heat. If the heat cannot escape, the items can become hot enough to catch fire. Piling, stacking or storing oil-affected items can prevent heat from escaping and create a fire hazard.
- If it is unavoidable that fabrics that contain vegetable or cooking oil or have been contaminated by hair care products be placed in a tumble dryer they should first be washed in hot water with extra detergent -this will reduce, but not eliminate, the hazard.

- Remove all objects from items that could be a source of fire ignition such as lighters or matches.
- **WARNING:** Never stop a tumble dryer before the end of the drying cycle unless all items are quickly removed and spread out so that the heat is dissipated.
- Before any maintenance operation, deactivate the appliance and disconnect the mains plug from the socket.

## 2. CONDITIONS OF USE

This appliance is intended to be used in household and similar applications such as:

- farm houses;
- by clients in hotels, motels, bed & breakfast and other residential type environments;

- areas for communal use in blocks of flats or in launderettes.

## 3. SAFETY INSTRUCTIONS

### 3.1 Installation

**Warning:** Risk of fire / Flammable materials.

- Remove all the packaging.
- Do not install or use a damaged appliance.
- Follow the installation instructions supplied with the appliance.
- Do not install the appliance in an environment with no air exchange. The appliance contains flammable gas, propane (R290), a gas with a high level of environmental compatibility. Keep fire and ignition sources away from the appliance. Be careful not to cause damage to the refrigerant circuit containing propane.
- Always take care when moving the appliance as it is heavy. Always use safety gloves and enclosed footwear.
- Do not install or use the appliance where the temperature can be lower than 5°C or higher than 35°C.
- The floor area on which the appliance is to be installed must be flat, stable, heat resistant and clean.

- Make sure that there is air circulation between the appliance and the floor.
- Always keep the appliance vertical when it is being moved.
- The rear surface of the appliance must be put against a wall.
- When the appliance is in its permanent position, check if it is levelled correctly with the aid of a spirit level. If it is not, adjust the feet accordingly.

### 3.2 Electrical connection

#### **WARNING!**

Risk of fire and electric shock.

- Connect the mains plug to the mains socket only at the end of the installation. Make sure that there is access to the mains plug after the installation.
- **WARNING:** This appliance is designed to be installed / connected to a grounding connection in the building.
- Make sure that the parameters on the rating plate are compatible with the

electrical ratings of the mains power supply.

- Always use a correctly installed shockproof socket.
- Do not use multi-plug adapters and extension cables.
- Do not pull the mains cable to disconnect the appliance. Always pull the mains plug.
- Do not touch the mains cable or the mains plug with wet hands.

### 3.3 Use

#### **WARNING!**

Risk of injury, electric shock, fire, burns or damage to the appliance.

**Warning:** Risk of fire / Flammable materials. The appliance contains flammable gas, propane (R290), a gas with a high level of environmental compatibility. Keep fire and ignition sources away from the appliance. Be careful not to cause damage to the refrigerant circuit containing propane.

- This appliance is for household (indoors) use only.
- Do not dry damaged (torn, frayed) items that contain padding or fillings.
- If laundry has been washed with a stain remover, carry out an additional rinse cycle before starting a drying cycle.
- Dry only fabrics that are suitable to dry in the appliance. Follow the cleaning instruction on the item label.
- Do not drink or prepare food with the condensed water/distilled water. It can cause health problems to people and pets.
- Do not sit or stand on the open door of the appliance.
- Do not dry dripping wet clothes in the appliance.

### 3.4 Internal lighting

#### **WARNING!**

Risk of injury.

- Visible LED radiation, do not look directly into the beam.

- To replace the internal lighting, contact the Authorised Service Centre.

### 3.5 Care and cleaning

#### **WARNING!**

Risk of injury or damage to the appliance.

**Warning:** Risk of fire / Flammable materials. The appliance contains flammable gas, propane (R290), a gas with a high level of environmental compatibility. Keep fire and ignition sources away from the appliance. Be careful not to cause damage to the refrigerant circuit containing propane.

- Do not use water spray and steam to clean the appliance.
- Clean the appliance with a moist soft cloth. Use only neutral detergents. Do not use abrasive products, abrasive cleaning pads, solvents or metal objects.
- Be careful when you clean the appliance to prevent damage to the cooling system.

### 3.6 Compressor

#### **WARNING!**

Risk of damage to the appliance.

- The compressor and its system in the tumble dryer is filled with a special agent which is free from fluoro-chloro-hydrocarbons. This system must stay tight. The damage of the system can cause a leakage.

### 3.7 Service

- To repair the appliance contact the Authorised Service Centre.
- Use original spare parts only.

### 3.8 Disposal

#### **WARNING!**

Risk of injury or suffocation.

**Warning:** Risk of fire / Risk of material damage and damage to the appliance.

- Disconnect the appliance from the mains electrical and water supplies.
- Cut off the mains electrical cable close to the appliance and dispose of it.
- The appliance contains flammable gas (R290). Contact your municipal

authority for information on how to discard the appliance correctly.

- Remove the door catch to prevent children or pets from becoming trapped in the drum.
- Dispose of the appliance in accordance with local requirements for the disposal of Waste Electrical and Electronic Equipment (WEEE).

## 4. PRODUCT DESCRIPTION

- 1** Water container
- 2** Control panel
- 3** Internal lighting
- 4** Appliance door
- 5** Filter
- 6** Rating plate

- 7** Airflow slots
- 8** Condenser lid
- 9** Condenser cover
- 10** Adjustable feet

For ease of loading laundry or ease of installation the door is reversible. (see separate leaflet).

## 6. WI-FI - CONNECTIVITY SETUP

This chapter describes how to connect the smart appliance to the Wi-Fi network and to link it to a mobile devices.

By this functionality you can receive notifications, monitor and control your tumble dryer from your mobile devices.

To connect the appliance to enjoy the full range of features and services you need:

- Wireless network at home with internet connection enabled.
- Mobile device connected to wireless network.

<b>Frequency</b>	2.4 GHz for ANZ market
<b>Protocol</b>	IEEE 802.11b/g/n two stream radio
<b>Max power</b>	< 20dBm

### 6.1 Installing AEG Home

When connecting the tumble dryer to the application, stand near it with Your smart device.

Make sure that your smart device is connected to the wireless network.

1. Go to the App Store on your smart device.
2. Download and install App AEG Home .
3. Make sure you started a Wi-fi connection in the dryer. If not go to the section below.
4. Start the application. Select the country and language and login with Your email and password. If you do not have an account, create a new one following the instructions in AEG Home.

## 6.2 Wireless connection configuration

Before you begin configuration download and install AEG Home application on your smart device.

1. In the App - tap on Add appliance and follow the instructions on the App for appliance connection.
2. Push the On/Off button to switch on the appliance.
3. Wait approximately 8 seconds.
4. Touch and hold the Refresh and Delay Start buttons simultaneously for a few seconds until a 'click' sound is heard.

The symbols:  and  appear on the display. After few seconds only flashing symbol:  remains. Wireless module is activating for around 1 minute. When ready the symbol:  (**Access Point**) appears on the display. **Access Point** is open for around 3 minutes.

5. Configure AEG Home application on your smart device.

If the configuration is successful the symbol:  (**Access Point**) disappears and the symbol:  stops flashing.

Each time you switch the appliance on, the appliance attempt to connect to the network automatically. When the connection is established the symbol:  stops flashing.

**To switch off the wireless connection** , touch and hold down Refresh and Delay Start buttons at the same time for 3 seconds. The symbol: **OFF** appears on the display.

Appliance stores last connection configuration. To use wireless features of the appliance the wireless connection must be in **On** mode.

**To remove the wireless credentials**, touch and hold down Refresh and Delay Start buttons at the same time for 10

seconds. The symbol:  appears on the display.

## 6.3 Remote control from application AEG Home

AEG Home allows you to control your laundry through a mobile device.

It contains a large number of programs, useful features and product information tailored perfectly to the appliance.

Through the app you can select the programs already available from the appliance control panel, plus unlock additional programs available only from a mobile device. Additional programs can change over the time along with new versions of the app.

It's personalized laundry care - all from your mobile device.

One of the AEG Home  application features is to remotely control appliance by:

- standard or additional program selection
- program start and stop
- program status view

It works only when remote control is enabled.

in remote mode each program and option selection from extended application list is signalled by APP symbol on the display.

## Remote control activation

To operate remotely the tumble dryer you must activate this function on the appliance control panel.

To enable the remote control:

1. Check wireless connection between the appliance and smart device.

The symbol must be on the display and your appliance must be accessible from AEG Home application.

2. Touch and hold down the Time

Drying and Delay Start buttons at the same time.

The symbol must appear on the display. Remote control is enabled.

Another possibility to enable remote control is to touch Start/Pause button.

The symbol must appear on the display. Remote control is enabled.

## Remote control deactivation

To disable the remote control:

Touch and hold down the Time Drying

and Delay Start buttons at the same time.

The symbol must disappear from the display. Remote control is disabled.

Another possibility to disable remote control is to touch Start/Pause button.

The symbol must disappear from the display. Remote control is disabled.

Remote control is disabled once the appliance door is opened.

## 6.4 Over-the-air update

### WARNING!

During the update it is highly recommended to not turn off or unplug the appliance.

The App may propose an update for downloading new features.

The update is accepted via App only.

If a program is running, the App notifies that the update will start at the end of the program.

During the update, the appliance shows a message telling that update is running.

The appliance will usable again at the end of the update, without any notification about successful update.

If an error occurs, the appliance warns that update has failed: just press any buttons or turn the knob to return to normal use.

# 7. PROGRAM

Program	Load 1)	Properties / Fabric mark
Cottons Eco 2)	9 kg	Cotton fabrics - Extra dry /
Cottons	9 kg	Cycle defined to dry cottons items of different size / different weaving altogether.

Program	Load 1)	Properties / Fabric mark
Synthetics	4 kg	Blended garments containing mostly synthetic fibres like polyester, polyamide, etc. / 
Mixed XL	6 kg	Mix of garments made of cotton, cotton-synthetic blend and synthetic fabric. / 
Silk 	1 kg	Preserves the shape of delicate machine and hand-washable silk clothes, minimizing creases by using gentle warm air and soft movements. / 
Wool  	1 kg	<div><div></div><div><b>WOOL HAND WASH SAFE</b></div></div> <p>Gently dries for machine and hand-washable woollens. Remove immediately the items when the program is completed.</p> <p>The wool drying cycle of this machine has been approved by The Woolmark Company for the drying of wool garments labelled as "hand wash" provided that the garments are dried according to the instructions issued by the manufacturer of this machine. Follow the garment care label for other laundry instructions. M2001 The Woolmark symbol is a Certification mark in many countries.</p>
Bedlinen XL	4,5 kg	Dries up to three bed linen sets at once. Minimises twists and tangles of large items to ensure every bed linen reaches a uniform dryness without wet spots. / 
Hygiene	3 kg	Dries and adds a hygienic treatment to your garments maintaining a higher temperature phase over time that reduces the presence of micro-organisms. Program to treat wet clothes. Not suitable for delicate garments. / 

Program	Load 1)	Properties / Fabric mark
Delicates	<b>4 kg</b>	Recommended for generic delicate fabrics such as viscose, rayon, acrylic and their blends.
Duvet	<b>3 kg</b>	Ensures proper drying of inner parts through single or double duvets, pillows, and padded blankets. /   

1) The maximum weight refers to dry items.

2) For test institute only: the Cotton Eco program is the "Standard cotton program"

## 7.1 Program and options selection compatibility

Program 1)	Options				
	Dryness Level	Quiet Mode	Anti-crease	Refresh	Time Drying
Cottons Eco			■		
Cottons		■	■	■	■
Synthetics		■	■	■	■
Mixed <b>XL</b>			■		■
Silk 			■		
Wool  					■ 2)
Bedlinen <b>XL</b>			■		
Hygiene					
Delicates			■		
Duvet					

1) Aside from the program, you can set one or more options at the same time.

2) See chapter OPTIONS: Time Drying on Wool program

## 8. OPTIONS

### 8.1 Dryness Level

This option helps to achieve requested laundry dryness. You can select the level of dryness:

 ready to iron - **iron dry** level

 ready to store - **cupboard dry** level<sup>1)</sup>

 ready to store - drier than **cupboard dry** level

 ready to store - **extra dry** level

<sup>1)</sup> Default selection which is related to the program

### 8.2 Quiet Mode

The appliance operates with low noise without effect on the drying quality. The appliance operates slowly with longer cycle time.

### 8.3 ECO

This option is on by default with all programs.

The power consumption is at the minimum level.

### 8.4 Anti-crease

Extends up to 120 minutes the anti-crease phase (30 minutes) at the end of the drying cycle. After drying phase drum rotates from time to time to prevent creases. Laundry can be removed during the anti-crease phase.

### 8.5 Refresh

To refresh clothes that were in storage. Maximal load cannot exceed 1 kg.

### 8.6 Time Drying

For cottons, synthetics and mixed. Lets the user to set drying time from minimum 10 min to maximum of 2 hours (in 10 min steps). When this option is maximum, load indicator disappears.

 The cycle lasts as long as set drying time regardless of the size of a load and its dryness.

#### TIME DRYING RECOMMENDATION

10 - 20 min	action of cool air only (no heater).
20 - 40 min	additional drying to improve dryness after previous drying cycle.
> 40 min	full drying of the small laundry loads up to 4 kg, well spun (>1200 rpm).

### 8.7 Time Drying on Wool program

Option applicable to Wool program to adjust final dryness level to more dry or less dry.

### 8.8 Delay Start

 Lets to delay the start of a drying program from minimum of 30 minutes to maximum of 20 hours.

1. Set the drying program and options.
2. Touch Delay Start button again and again.

Time of delay is on the display (e.g.  if the program has to start after 12 hours.)

3. To activate Delay Start option, touch the Start/Pause button.

Time to start decreases on the display.

### 8.9 Buzzer

The sound is heard at the:

- cycle end
- start and end of crease guard phase

## 9. BEFORE FIRST USE

- i** Rear drum locks are removed automatically when dryer is activated for the first time. Possible to hear some noise.

### To unlock the rear drum locks:

1. Switch on the appliance.
  2. Set any program.
  3. Press the Start/Pause button.
- Drum starts to rotate. Rear drum locks are automatically deactivated.

### Before you use the appliance to dry items:

- Clean the tumble dryer drum with a moist cloth.
- Start a 1 hour program with moist laundry.

- i** At the beginning of the drying cycle (first 3-5 min) there could be a slightly higher sound level. This is due to the compressor starting up. This is normal for compressor powered appliances such as refrigerators and freezers.

## 9.1 Unusual smell

The appliance is tightly packed.

After product unpacking you can feel an unusual smell. This is normal for brand new products.

Appliance is built of several different types of material which all together can generate unusual smell.

Over usage time, after few drying cycles unusual smell gradually disappears.

The buzzer option is by default always on. You can use this option to activate or deactivate the sound.

## 9.2 Noises

- i** Different noises may be heard at different times during the drying cycle. They are perfectly normal operating sounds.

### Working compressor.

### Rotating drum.

### Working fans.

### Working pump and transferring condensation to the tank.

# 10. DAILY USE

## 10.1 Preparing the laundry

Very often the clothes after washing cycle are kneaded and tangled altogether. Drying kneaded and tangled clothes is inefficient. To assure proper air flow and even drying it is recommended to shake and load one by one the clothes to the tumble dryer.

To assure proper drying process:

- Close the zips.
  - Close the fasteners of duvet covers.
  - Do not dry ties or ribbons loose (e.g. apron ribbons). Tie them before you start a program.
  - Remove all items from pockets.
  - Turn items with the internal layer made of cotton inside out. Cotton layer must be faced outwards.
- Always set the program suitable for the type of laundry.
  - Do not put light and dark colours together.
  - Use suitable program for cottons, jersey and knitwear to reduce shrinkage.
  - Do not exceed the maximum load stated in the programs chapter or shown on the display.
  - Dry only the laundry that is suitable for tumble drying. Refer to the fabric label on the items.
  - Do not dry large and small items together. Small items can be trapped inside the large items and remain wet.
  - Shake the large clothes, fabrics before placing in the tumble dryer. It is to avoid moist places inside the fabric after the drying cycle.

Fabric label	Description
	Laundry is suitable for tumble drying.
	Laundry is suitable for tumble drying at higher temperatures.
	Laundry is suitable for tumble drying at low temperatures only.
	Laundry is not suitable for tumble drying.

## 10.2 Loading the laundry

### CAUTION!

Ensure the laundry is not trapped between the appliance door and the rubber seal.

1. Pull open the appliance door.
2. Load the laundry one item at a time.
3. Close the appliance door.

## 10.3 Turning on the appliance

To turn on the appliance:

Push the On/Off button.

If the appliance is on, some indicators appear on the display.

## 10.4 Auto Off function

To decrease the energy consumption, the Auto Off function turns the appliance off automatically:

- if the Start/Pause touch button is not touched within 5 minutes.
- 5 minutes after a cycle ends.

Push the On/Off button to turn on the appliance.

If the appliance is on, some indications appear on the display.

## 10.5 Setting a program

Use the program dial to set the program. The approximate program duration appears on the display.

Real drying time will depend on type of the load (quantity and composition), the room temperature and the humidity of your laundry after spin drying phase.

## 10.6 Options

Together with the program you can set 1 or more special options.

To activate or deactivate an option touch the relevant button or a two button combination.

its symbol appears on the display or the led above the corresponding button lights up.

## 10.7 Child lock option

The child lock can be set to prevent children from playing with the appliance. The child lock option locks all touch buttons and the program dial (this option does not lock the **On/Off** button).

You can activate the child lock option:

- before you touch the **Start/Pause** button - the appliance cannot start
- after you touch the **Start/Pause** button - programs and option selection is unavailable.

### Child lock option activation:

1. Turn the dryer on.
2. Select 1 of the available programs.
3. Touch and hold down 2 buttons at the same time.

The symbol  appears on the display.

4. To deactivate the child lock, touch the above buttons again until the symbol disappears.

## 10.8 Starting a program

To start the program:

Touch the **Start/Pause** button.

The appliance starts and the LED above the button stops flashing and stays on.

## 10.9 Program change

To change a program:

1. Push the On/Off button to turn the appliance off.
2. Push the On/Off button again to turn on the appliance.
3. Set a new program.

## 10.10 Program end

-  Clean the filter and drain the water container after each drying cycle. (See chapter CARE AND CLEANING.)

If the drying cycle is finished, the symbol

 appears on the display. If the Buzzer option is activated, the acoustic signal sounds intermittently for 1 minute.

-  If you do not turn off the appliance, the anti-crease phase starts (not active with all programs). Flashing  symbol signals the execution of the anti-crease phase. Laundry can be removed during this phase.

To remove the laundry:

1. Push the On/Off button for 2 seconds to turn the appliance off.
2. Open the appliance door.
3. Remove the laundry.
4. Close the appliance door.

Possible causes of unsatisfactory drying results:

- Inadequate default dryness level settings. See chapter *Adjustment of default dryness level*
- Room temperature is too low or too high. Optimal room temperature is between 18°-25°C.

## 10.11 Possible causes of unsatisfactory drying results:

- The filter is clogged. Clogged filter makes drying inefficient.
- The airflow slots are clogged.
- The drum is dirty.
- Inadequate default dryness level settings. See chapter *Adjustment of default dryness level*
- Room temperature is too low or too high. Optimal room temperature is between 18°-25°C.

# 11. HINTS AND TIPS

## 11.1 Ecological hints

- Spin the laundry well before drying.
- Do not exceed the load sizes which are specified in the programs chapter.
- Clean the filter after each drying cycle.
- Do not use fabric softener to wash and then dry. In the tumble dryer laundry becomes soft automatically.
- The water from the water container can be used to iron the clothes. You must first filter the water to eliminate remaining textile fibres (simple coffee filter is suitable).
- Always keep the airflow slots at the bottom of the appliance clear.
- Make sure there is good airflow where the appliance is to be installed.

## 11.2 Adjustment of default dryness level

To change the default dryness level:

1. Turn the appliance on.
2. Wait approximately 8 seconds.
3. Select 1 of the available programs.
4. Touch and hold down the **Quiet Mode** and **Refresh** buttons at the same time.

One of the symbols appears on the display:

 - Maximum dryness

 - Extra dryness

 - Standard dryness

5. Touch the **Start/Pause** button repeatedly until you reach the desired dryness level.

Dryness level	Display symbol
Maximum dryness	 

Dryness level	Display symbol
Extra dryness	 
Standard dryness	 

6. To memorise the setting touch and hold down the **Quiet Mode** and **Refresh** buttons at the same time for approximately 2 seconds.

## 11.3 Deactivating the tank indicator

*The water container indicator is activated by default. It illuminates at the end of the drying cycle or during the cycle if the water reservoir is full. If the draining kit is installed the water container is drained automatically and the indicator can be deactivated.*

To deactivate the indicator:

1. Turn the appliance on.
2. Wait approximately 8 seconds.
3. Select 1 of the available programs.
4. Touch and hold down **Refresh** and **Time Drying** buttons at the same time.

One of 2 configurations is possible:

- the Tank indicator:  is on if the symbol  appears - the water container indicator is permanently **activated**
- the Tank indicator:  is off if the symbol  appears - the water container indicator is permanently **deactivated**

## 12. CARE AND CLEANING

### 12.1 Cleaning the filter

At the end of each cycle the  *Filter* symbol comes on the display and you must clean the filter.

The filter collects the lint during the drying cycle.

To achieve the best drying performances clean the filter regularly, clogged filter lead to longer cycles and energy consumption increase. Use your hand to clean the filter, and if necessary, a vacuum cleaner.

#### CAUTION!

Avoid the use of water to clean the filter. Instead throw away lint in the dustbin (avoid dispersion of plastic fiber in water ambient).

1. Open the door. Pull the filter up.

2. Push the hook to open the filter.

3. Gather lint with hand from both internal parts of the filter.

Throw the lint in the dustbin.

4. If necessary, clean the filter with a vacuum cleaner. Close the filter.
5. If necessary, remove lint from the filter socket and gasket. You can use a vacuum cleaner. Place the filter back inside the filter socket.

### 12.2 Emptying the water container

Empty the condensed water container after each drying cycle.

If the condensed water container is full, the program stops automatically. The

 *Tank* symbol comes on the display and you must empty the water container.

To empty the water container:

1. Pull the water container out keeping it in a horizontal position.

2. Pull the plastic connection out and drain the water into a basin or equivalent receptacle.

3. Push the plastic connection back in and place the water container back into position.
4. To continue the program press the Start/Pause button.

## 12.3 Cleaning the condenser

If the symbol  $\Rightarrow$  *Condenser* flashes on the display, inspect the condenser and its compartment. If it is dirty, clean it. Do the check not less than once a 6 months.

### WARNING!

Do not touch the metal surface with bare hands. Risk of injury. Wear protective gloves. Clean carefully to avoid damaging the metal surface.

To inspect:

1. Open the door. Pull the filter up.

2. Open the condenser cover.

3. Turn the lever to unlock the condenser lid.

4. Lower the condenser lid.

5. If necessary, remove the fluff from the condenser and its compartment. You can use a wet cloth and/or a vacuum cleaner with a brush attachment.

6. Close the condenser lid.

7. Turn the lever until it clicks into position.
8. Put the filter back.

## 12.4 Cleaning the drum

### **WARNING!**

Disconnect the appliance before you clean it.

Use a standard neutral soap detergent to clean the inner surface of the drum and drum lifters. Dry the cleaned surfaces with a soft cloth.

### **CAUTION!**

Do not use abrasive materials or steel wool to clean the drum.

## 12.5 Cleaning the control panel and housing

Use a standard neutral soap detergent to clean the control panel and housing.

Use a moist cloth to clean. Dry the cleaned surfaces with a soft cloth.

### **CAUTION!**

Do not use furniture cleaning agents or cleaning agents which can cause corrosion.

## 12.6 Cleaning the airflow slots

Use a vacuum cleaner to remove fluff from the airflow slots.

# 13. TROUBLESHOOTING

### **WARNING!**

Refer to Safety chapters.

## 13.1 Error Codes

The appliance does not start or it stops during operation.

First try to find a solution to the problem (refer to the table). If the problem persists, contact the Authorised Service Centre.

### **WARNING!**

Deactivate the appliance before carrying out any check.

**In case of major problems, the acoustic signals operate, the display shows an error code and the Start/Pause button may flash continuously:**

Error code	Possible cause	Remedy
<b>E5A</b>	Appliance motor overloaded. Too much laundry or entrap in the drum.	The program was not completed. Remove the laundry from the drum, set the program and restart the cycle.
<b>E97</b>	Internal fail. No communication between electronic elements of the appliance.	The program was not finished properly or the appliance stopped too early. Switch the appliance off and on again. If the error code appears again, contact the Authorised Service Centre.

Error code	Possible cause	Remedy
<b>EH0</b>	The mains supply is unstable.	When the appliance is showing <b>EH0</b> , please wait until main supply is stable than press start. If the appliance pause the cycle without any indication then press the cycle start. If the warning will occur check the power cord / socket integrity or main supply.

If the display shows other error codes, deactivate and activate the appliance. If the problem continues, contact the Authorised Service Centre.

In case of different problem with the tumble dryer check the table below for possible solutions.

## 13.2 Troubleshooting

Problem	Possible cause	Remedy
The tumble dryer does not operate.	The tumble dryer is not connected to the mains supply.	Connect it to the mains socket. Check the fuse in the fuse box (domestic installation).
	The door is open.	Close the door.
	The On/Off button was not pushed.	Push the On/Off button.
	The Start/Pause button was not touched.	Touch the Start/Pause button.
	The appliance is in standby mode.	Push the On/Off button.
Unsatisfactory drying result.	Incorrect program selection.	Select a suitable program. <sup>1)</sup>
	The filter is clogged.	Clean the filter. <sup>2)</sup>
	Dryness Level option was set to  iron dry. <sup>3)</sup>	Change Dryness Level option to a higher level.
	The load was too large.	Do not exceed the maximum load size.
	The airflow slots are clogged.	Clean the airflow slots at the bottom of the appliance.
	There is some dirt on the humidity sensor in the drum.	Clean the front surface of the drum.
	The dryness level was not set to the desired level.	Adjust the dryness level. <sup>4)</sup>
	The condenser is clogged.	Clean the condenser. <sup>2)</sup>

Problem	Possible cause	Remedy
The loading door does not close	The filter is not locked into position.	Put the filter in the correct position.
	Laundry is trapped between the door and the seal.	Remove trapped items and close the door.
It is not possible to change the program or option.	After a cycle starts it is not possible to change the program or option.	Turn the tumble dryer off and on. Change the program or option as required.
It is not possible to select an option. An acoustic signal is emitted.	The option you tried to select is not available for the selected program.	Turn the tumble dryer off and on. Change the program or option as required.
There is no drum light	Defective drum lamp.	Contact the service centre to replace the drum lamp.
Unexpected duration time appears on the display.	The drying duration is calculated according to load size and dampness.	This is automated - the appliance is working correctly.
A program is inactive.	The water container is full.	Drain the water container, push the Start/Pause button. <sup>2)</sup>
The drying cycle is too short.	The load size is small.	Select a time program. The time value must be related to the load. To dry one item or a small amount of laundry we recommend short drying times.
	The laundry is too dry.	Select an appropriate time program or a higher dryness level (e.g.  <i>extra dry</i> )
Drying cycle too long <sup>5)</sup>	The filter is clogged.	Clean the filter.
	The load is too large.	Do not exceed the maximum load size.
	The laundry was not spun sufficiently.	Spin the laundry well in the washing machine.
	Too low or too high room temperature - this is not the appliance malfunction.	Ensure a room temperature higher than +5°C and lower than +35°C. Optimal room temperature to achieve best drying results is between 18°-25°C.

Problem	Possible cause	Remedy
The display shows:  .	All buttons are inactive, except the Start/Pause.	The appliance downloads the APP updates. Wait until the update process is complete. If you deactivate the appliance during update, it resumes when you activate the appliance again.
No wireless connection or connection often brakes off.	The wireless home network does not work.	Check wireless home network configuration. Restart the router. If problem still exists contact your wireless service provider.
	The smart device or the appliance or both are not paired with the wireless network.	Repeat connection configuration steps on smart device or the appliance or both.
The connection with the appliance through the AEG Home application does not work frequently.	Poor or missing connection between the tumble dryer and router.	Assure proper connection between the appliance and the home router. Move the router closer to the appliance. Equip your home network with wireless range extender. Do not use at the same time microwave oven and remote control. The microwave oven can disrupt the connection signal.

1) Follow the program description — see the PROGRAMS chapter .

2) See the *CARE AND CLEANING* chapter.

3) Only dryers with the Dryness Level option.

4) See the HINTS AND TIPS chapter .

5) Note: After a maximum of 6 hours the drying cycle ends automatically.

### 13.3 Possible causes of unsatisfactory drying results:

- The filter is clogged. Clogged filter makes drying inefficient.
- The airflow slots are clogged.
- The drum is dirty.
- Inadequate default dryness level settings. See chapter *Adjustment of default dryness level*
- Room temperature is too low or too high. Optimal room temperature is between 18°-25°C.

## 14. TECHNICAL DATA

Height x Width x Depth	850 x 596 x 638 mm (maximum 663 mm)
Max. depth with the appliance door open	1108 mm
Max. width with the appliance door open	958 mm
Adjustable height	850 mm (+ 15 mm - feet adjustment)
Drum volume	118 l

Maximum load	9 kg
Voltage	230-240 V
Frequency	50 Hz
Total power	700 W
Type of use	Household
Permitted ambient temperature	+ 5°C to + 35°C
Level of protection against ingress of solid particles and moisture ensured by the protective cover, except where the low voltage equipment has no protection against moisture	<b>IPX4</b>
Gas designation	R290
Gas weight	0,149 kg

## 15. ACCESSORIES

### 15.1 Drain kit

Accessory name: E2YH01.

Available from your authorised vendor  
(can be attached to some types of  
tumble dryer)

For thorough draining of the condensed  
water into a basin, siphon, gully, etc.  
After installation, the water container is  
drained automatically. The water  
container must stay in the appliance.

The installed hose must be minimum 50  
cm to maximum 100 cm from floor level.  
The hose cannot be in a loop. Decrease  
the length of the hose if necessary.

Read carefully the instructions supplied  
with the accessory.

### 15.2 Pedestal with drawer

Accessory name: PDST61; E6WHPED4.

Available from your authorised vendor.

For increasing the height of the  
appliance in order to ease loading and  
unloading of laundry.

The drawer can be used for laundry  
storage e.g. : towels, cleaning products  
etc.

Read carefully the instructions supplied  
with the accessory.

## 15.3 Stacking kit

Accessory name: SKP11GW3,  
STA9GW3

Available from your authorised vendor.

Stacking kit can be used only between washing machines and tumble dryers specified in the leaflet. See the leaflet attached.

Read carefully the instructions supplied with the accessory.

## 16. WARRANTY

FOR SALES IN AUSTRALIA AND NEW ZEALAND

ALL AEG BRANDED APPLIANCES

**This document sets out the terms and conditions of the product warranties for AEG Appliances. It is an important document. Please keep it with your proof of purchase documents in a safe place for future reference should there be a manufacturing defect in your Appliance. This warranty is in addition to other rights you may have under the Australian Consumer Law.**

### 1. In this warranty:

- a) 'ACL' or 'Australian Consumer Law' means Schedule 2 to the Competition and Consumer Act 2010;
- b) 'Appliance' means any Electrolux product purchased by you and accompanied by this document;
- c) 'ASC' means Electrolux's authorised serviced centres;
- d) 'AEG' is the brand controlled by Electrolux Home Products Pty Ltd of 163 O'Riordan Street, Mascot NSW 2020, ABN 51 004 762 341 in respect of Appliances purchased in Australia and Electrolux (NZ) Limited (collectively "Electrolux") of 3-5 Niall Burgess Road, Mount Wellington, in respect of

Appliances purchased in New Zealand;

- e) 'Warranty Period' means the period specified in clause 3 of this warranty;
  - f) 'you' means the purchaser of the Appliance not having purchased the Appliance for re-sale, and 'your' has a corresponding meaning.
2. **Application:** This warranty only applies to new Appliances, purchased and used in Australia or New Zealand and is in addition to (and does not exclude, restrict, or modify in any way) other rights and remedies under a law to which the Appliances or services relate, including any non-excludable statutory guarantees in Australia and New Zealand.
  3. **Warranty Period:** Subject to these terms and conditions, this warranty continues for in Australia for a period of 60 months and in New Zealand for a period of 60 months, following the date of original purchase of the Appliance.
  4. **Repair or replace warranty:** During the Warranty Period, Electrolux or its ASC will, at no extra charge if your Appliance is readily accessible for service, without special equipment and subject to these terms and

conditions, repair or replace any parts which it considers to be defective. Electrolux may, in its absolute discretion, choose whether the remedy offered for a valid warranty claim is repair or replacement. Electrolux or its ASC may use refurbished parts to repair your Appliance. You agree that any replaced Appliances or parts become the property of Electrolux.

5. **Travel and transportation costs:** Subject to clause 7, Electrolux will bear the reasonable cost of transportation, travel and delivery of the Appliance to and from Electrolux or its ASC. Travel and transportation will be arranged by Electrolux as part of any valid warranty claim.
6. **Proof of purchase** is required before you can make a claim under this warranty.
7. **Exclusions:** You may not make a claim under this warranty unless the defect claimed is due to faulty or defective parts or workmanship. This warranty does not cover:
  - a) light globes, batteries, filters or similar perishable parts;
  - b) parts and Appliances not supplied by Electrolux;
  - c) cosmetic damage which does not affect the operation of the Appliance;
  - d) damage to the Appliance caused by:
    - negligence or accident;
    - misuse or abuse, including failure to properly maintain or service;
    - improper, negligent or faulty servicing or repair works done by anyone other than an Electrolux authorised repairer or ASC;
    - normal wear and tear;
    - power surges, electrical storm damage or incorrect power supply;
    - incomplete or improper installation;
    - incorrect, improper or inappropriate operation;
    - insect or vermin infestation;

– failure to comply with any additional instructions supplied with the Appliance;  
In addition, Electrolux is not liable under this warranty if:

- the Appliance has been, or Electrolux reasonably believes that the Appliance has been, used for purposes other than those for which the Appliance was intended, including where the Appliance has been used for any non-domestic purpose;
- the Appliance is modified without authority from Electrolux in writing;
- the Appliance's serial number or warranty seal has been removed or defaced.

#### 8. **How to claim under this warranty:**

To enquire about claiming under this warranty, please follow these steps:

- a. carefully check the operating instructions, user manual and the terms of this warranty;
- b. have the model and serial number of the Appliance available;
- c. have the proof of purchase (e.g. an invoice) available;
- d. telephone the numbers shown below.

9. **Australia:** For Appliances and services provided by Electrolux in Australia: Electrolux goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the Appliance repaired or replaced if the Appliance fails to be of acceptable quality and the failure does not amount to a major failure. 'Acceptable quality' and 'major failure' have the same meaning as referred to in the ACL.

10. **New Zealand:** For Appliances and services provided by Electrolux in New Zealand, the Appliances come with a guarantee by Electrolux pursuant to the provisions of the Consumer Guarantees Act, the Sale

of Goods Act and the Fair Trading Act. Where the Appliance was purchased in New Zealand for commercial purposes the Consumer Guarantee Act does not apply.

11. **Confidentiality:** You accept that if you make a warranty claim,

Electrolux and its agents including ASC may exchange information in relation to you to enable Electrolux to meet its obligations under this warranty.

### Important Notice

Before calling for service, please ensure that the steps listed in clause 8 above have been followed.
