Height	850mm
Width	600mm

Features & Benefits

Nine fabric care cycles

Featuring nine specially developed wash cycles to care for your clothes, this machine has a cycle to suit every load type, from Heavy to Delicate.

Easy to use

This washing machine features an intuitive control panel, where you can easily select your preferred cycle and wash boost options, which include Rinse+ and Pre Wash.

A smarter, quieter motor

SmartDrive™ technology is a gentle, quiet, and efficient combination of smart electronics and a direct drive motor that senses the load to deliver better fabric care.

Quick cycles

When time is short, you can select a quick 30 minute wash without compromising cleaning and fabric care. Vortex Wash allows most cycles to take less than one hour to complete.

Saves water and energy

With a 4.5 star water rating and 4 star energy rating, our 8kg washing machine handles large loads while keeping water and power usage to a minimum.

Designed to match

The complete package for a beautiful laundry. This washing machine is designed to match both the 8kg Heat Pump Condensing Dryer and the 8kg Condensing Dryer. With outstanding aesthetics and complimentary wash and dry cycles, they become the perfect pair to deliver complete fabric care.
