THE VACUUM THAT CLEANS ITSELF

Forget pulling tangled hair and fibres from your vacuum cleaner brush. Let the patented BrushRollClean technology do the job by just pressing the pedal for 5-10 seconds whilst the vacuum is on. The internal blade cuts the hair and fibres which are then sucked into the dust container to maintain performance without manual cleaning.

SUSTAINED SUCTION POWER

Cyclonic system separates dirt from air, which enables the vacuum to maintain full performance and suction throughout the whole cleaning process, even while the dust container fills up*. *Measured with dust container filled with DMT dust (standard test dust), according to IEC 5.1, 5.7 and 5.9 at maximum power.
