Please note

- This product operates with 24V. The supplied transformer must be installed and roughed-in by a licensed electrician in a position within 2 meters of the closest heated rail.
- Fasten the fixings on finished wall to secure studs and connect the electrical wires.
- Attached rail to the wall fixings and secure.
- Switch on the mains supply and allow 30*60 minutes to allow rail to reach maximum temperature.
- This is only an installation guide. Rogerseller recommends having the product on-site before commencing rough in.
- Full installation instructions come with the product or at request.
- Additional rails available. **Maximum** 3 rails per transformer.
