

Key Features

1. Bespoke Design
2. Internal Beverage Centre™
3. Autofill Infuser Water Jug
4. Dual Auto Ice Maker
5. All-Around Cooling
6. SmartThings Enabled
7. 10 Year Compressor Warranty
8. Big Bottle Door Bins
9. Power Cool / Power Freeze
10. LED Lighting

1

Design that never gets old

Bespoke

Elevate your kitchen with a beautifully designed, minimalist white fridge. Seamlessly accentuated with flat door panels, recessed handles and a cotta metal finish.

2

Flat door outside. Water Dispenser Inside.

Internal Beverage Centre™

We've hidden the water dispenser inside the door to keep a seamless, flat door design outside for a clean, premium finish. The clever door-in-door design allows quick access to a handy and hygienic Beverage Centre™ inside including the autofill water jug, water dispenser and drinks storage so you get function without the mess.

3

Fridge > Table >> Fast

Autofill Infuser Water Jug

Got a serial offender in your household who always forgets to fill-up the water jug? Not a problem with our Autofill Infuser Jug. Just pop it back into its handy station and it will refill automatically.³ No waiting and no room temperature tap water ever again. And if you're feeling fancy, add some flavours to the infuser for a refreshing twist⁴.

4

Ice cubed baby

Dual Auto Ice Maker

Be prepared for any occasion. The Dual Auto Ice Maker has separate ice makers that serve regular Cubed Ice and Ice Bites™. The Ice Bites™ are smaller and chill drinks fast, so are especially good for families with children. Make up to 2.6kg of ice a day and store up to 3.1kg at a time⁵. And because the ice maker is in the freezer instead of the door, it frees up storage space in the fridge.

5

Help preserve freshness in your food

All-Around Cooling

No matter where your food is stored in the fridge, it will be cooled. All-around Cooling technology continually checks the internal temperature and blows out cold air when needed. Multiple air vents on every shelf help ensure even distribution of cold air from corner to corner to help keep your food fresh.⁶

Control and monitor from your phone

6

Control and monitor from your phone**SmartThings App Enabled¹**

Connect your refrigerator to your smartphone through the SmartThings App to manage food, recipes, energy monitoring and troubleshooting. Take care of your food and your refrigerator easily.

6a)

SmartThings AI Energy Mode**Up to 10% energy saving with AI Energy Mode⁸**

Activate AI energy mode to help monitor and reduce your energy consumption. AI Energy Mode analyses your usage patterns and surroundings to optimise the compressor speed and defrost cycle to help reduce your energy use⁸ by up to 10%.

6b)

Help prevent food spoilage**Open Door Notification**

Never worry about leaving the fridge door open again! SmartThings¹ can detect when it's open, and sends a notification to your phone.

6c)

Real-time monitoring & alerts**SmartThings Home Care¹**

Easily monitor the status of your compatible fridge in real-time with SmartThings Home Care¹. You can also receive automatic notifications and suggested solutions if certain parts need replacing or problems are detected.

Digital Inverter technology.**10 Year Compressor Warranty²**

Enjoy efficiency and long-lasting performance. The Digital Inverter Compressor intelligently adjusts operating speed in response to cooling demand and is backed by a 10 years limited parts warranty to give you some added peace of mind.

Store in the door. Free up internal fridge space.**Big Bottle Door Bins**

Keep large bottles and jugs within convenient reach, right inside the door. The deep door bins provide plenty of room for those BIG 3L milk and 2L soft drink bottles, without crowding out the internal fridge space.

Fast, cold, blast.**Power Cool / Power Freeze**

At the touch of a button, Power Cool blows intensely cold air into the fridge, so foods and drinks are chilled quickly. And Power Freeze delivers a fast blast of cold air into the freezer. It's great for freezing or firming up frozen food, like ice cream, and making more ice.⁷

See it all**LED lighting**

Find ingredients easily, even at night. Low profile, high efficiency, long lasting LED lighting brilliantly illuminates every corner of the fridge compartment, so everything is clearly visible.

¹ Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.

² See warranty Card or visit www.samsung.com.au for details

³ Automatic refill is subject to the unit being plumbed

^{4a} It is recommend that fruit infused water is consumed within 24 hours. After that, the infused water can spoil over time.

^{4b} You must clean the water pitcher after you have consumed the infused water. Also clean the water pitcher if you haven't used it for a long time.

⁵ Stores 1.4kg of Cubed Ice and 1.7kg of Ice Bites™.

^{6a} Do not block the air vents inside the refrigerator.

^{6b} If the air vents are blocked, especially with a plastic bag, the refrigerator can be over cooled. If a cooling period lasts too long, the water filter may break and cause water leakage.

⁷ Using Power Cool or Power Freeze increases power consumption.

⁸ Tested on the SRF7400BB comparing power consumption results with AI Energy Mode turned on (63.7W) and off (101.3W). Conditions tested using Refrigerator 2°C and Freezer -19°C. Actual energy saving may vary, depending on usage conditions and patterns. Available via the SmartThings App on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. T&Cs apply. AI Energy Mode available on select refrigerator models only.
