RRP AUS \$7,149.00 AUS \$7,149.00

Product Details

FEATURES

Double glazed door, with anti-UV glass	Soft closing door	Inverter compressor	LED internal lighting
Sliding wooden shelves	Winter function heating system	Digital temperature display	Audio and visual alarm
Security lock			

BENEFITS

Multi-Temp Vintec versatile Multi-Temp technology is designed for serving different varietals at their perfect individual drinking temperatures. It provides a gradient of temperature throughout the cabinet, which is ideal for keeping all wine styles at their optimal drinking temperature.	Stable Temperature Our wine cabinets maintain a stable temperature to keep your wine in perfect cellaring conditions. This is thanks to double glazed glass, insulated side panels and interactions between a compressor and thermostat. (Digital display varies by model)
Winter Heating Function In some areas, the temperature in winter could drop drastically. Our wine cabinets are equipped with a heating function to deliver a constant temperature through the cellar all year round.	UV Protected Dark Storage Area UV rays negatively impact the quality of your wine. Our cabinets eliminate this treat by incorporating UV treated tinted glass doors, dark interiors and dimmed internal LED lights.
No Vibration To protect the storage life and quality of your wine, our cabinets have been designed to create a vibration proof environment by including an externally housed compressor, rubber shock absorbers and vibration absorbing wooden shelves.	

Specifications

WINE CELLARS

Installation Type	Both
Finish	Borderless Black Glass
Door Type	Glass Door
Door Construction	Double Glazed, UV Treated
Handle	Recessed
Refrigerant	R600a
Max Capacity (Bottles)	126
