

60cm 3 Zone Hob2Hood, Induction Cooktop, FlexiBridge and ProCook, XL Stainless Steel Trim
RRP AUS \$2,499.00

Product Details

FEATURES

Automax	Stop + Go: to reduce to warm setting if interrupted	Minute minder	Induction technology
Oko timer	OptiHeat control	DirekTouch™ controls	Function control lock
OptiZone induction cooktop	CountUp timer	Auto safety switch off	Child safety device lock
Power management			

Product Details

BENEFITS

Combine zones to cook more with FlexiBridge

Activated by a dedicated touch key and seamlessly controlled through one control, FlexiBridge is perfect for cooking larger dishes.

AutoMax

Our AutoMax cooking function provides fantastic automatic zone control. After you have selected the AutoMax function, it will bring the zone up to the boil and will then reduce it to your pre-selected power level for the remainder of the cooking time.

Öko Timer

The Öko Timer is an intelligent way for you to use your resources more efficiently. When you pre-set the cooking time on the cooktop, the timer works out precisely when to switch off in order to finish cooking the dish using the cooktops residual heat. The result? The same high quality food for lower energy bills.

Stop + Go

The Stop+Go function gives you even greater control while cooking. When you suddenly need to interrupt your cooking, simply activate Stop+Go, and the function will switch all of the active zones to keep warm. When you are ready, touch the Stop+Go button again and all the zones return to their previous settings.

Induction Technology

Induction cooktops offer maximum safety, automatic pot recognition ensures even if the hob is accidentally switched on, it will not heat up unless the wok is placed on the cooking zone. Induction cooktops are extremely easy to keep clean, the smooth ceramic surface can be wiped quickly, and spillages don't burn or bake on because the area surrounding the pan stays cool.

Superior flexibility

The OptiZone induction cooktops are developed with cooking zones which detect pan presence and location and are not restricted to traditional circular zones. This allows for multiple pots of various sizes to be placed within a cooking zone, provided they come into contact with the induction crosshairs.

The ultimate in cooking flexibility

The bridging function allows cookware to be placed across paired zones for a greater cooking surface*. The two zones share the same temperature and timer capability. * Please note cooking results can vary based on type of cookware and method of cooking

Extra efficient use of residual heat

By monitoring each heat zone as it cools, the OptiHeat control helps you make the most efficient use of residual heat. The OptiHeat control advises 3 levels of residual heat - whether the heat zone is still hot enough to cook with, hot enough to keep food warm, or simply hot to touch.

Keep in control of your cooking

Timing is everything - especially where cooking is concerned. With the CountUp timer, you can monitor the cooking process even more closely. The timer starts at zero and keeps counting until you stop or reset it, so you know exactly how long each stage of the cooking process is taking.

Function Control lock

Controls can be locked for safety to prevent unwanted use of the cooktop, or locked while in use to prevent changes to the cooking selection.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	5
Cooktop type	Induction
Materials/Colour	ceramic with trim
Trim finish	stainless steel
Removable trim (for cleaning)	No
Wok included designed to fit cooktop	No

CONTROLS

Controls of Cooktops	DirekTouch
Position of controls	front
Functions of Cooktops	stop and go,acoustic signal,automatic switch off,AutoMax automatic heat up,ProCook
Indicators/display	fault indicator,3 level residual heat indicator

DIMENSIONS

Total product height (mm)	55
Total product width (mm)	576
Total product depth (mm)	516
Cut out width (mm)	560
Cut out depth (mm)	490

ELEMENTS/BURNERS

LEFT FRONT ZONE

Left front zone	induction
Left front Watts	2300
Left front boost watts	3200
Left front diameter	220

CONTROLS

Features of Cooktop	safety cut off,overheating protection,electronic timer,minute minder,safety child lock,function lock,sound off,automatic pan sensing
Timer of Cooktop	auto off,countdown,Oko timer,CountUp

LEFT REAR ZONE

Left rear zone	induction
Left rear watts	2300
Left rear diameter	220

ELECTRICAL SPECIFICATIONS

Connected load KW	7.4
Type of connection	hardwired

RIGHT FRONT ZONE

Right front zone	induction
Right front Watts	1800
Right front diameter	280

SHIPPING

Shipping Volume (m3)	0.048
Shipping Weight (Kg)	12.94
Pack Dimensions Height (mm)	118
Pack Dimension Width (mm)	678

SHIPPING

Pack Dimension Depth (mm)	600
