**GEBERIT CONCEALED
CISTERN TECHNOLOGY**

EUROPEAN STYLE IN AUSTRALIA

Geberit's innovative button designs and concealed cistern technology has allowed users throughout the world to experience the luxury of well-designed modern bathrooms.

With experience spanning more than 50 years Geberit has developed an eye for premium button designs and precision Swiss manufacturing.

This has led to the installation of more than 60 million concealed cisterns worldwide.

Geberit offers an impressive 15-year warranty on cistern tanks and frames as well as 25-year spare parts availability for ultimate peace of mind and long term security.

PRECISION SWISS ENGINEERING

Outstanding product quality is only achieved with a team of Geberit engineers and designers who have a passion for innovative function and design.

Precision Swiss engineering and outstanding manufacturing combine to deliver peace of mind behind the wall and design freedom at the front of the wall.

To ensure its carbon footprint is responsible, Geberit puts the environment at the heart of its business by focusing on sustainable sourcing, manufacturing, logistics and product design that deliver a harmonious synergy with nature.

DESIGN MEETS FUNCTIONALITY

Modern bathrooms reflect simplicity and style. A Geberit concealed cistern creates options for design finishes including the installation of a wall hung pan. A Geberit concealed cistern creates options for design finishes including the installation of a wall hung pan offering the ability to maximise space and ensure excellent hygiene.

Award-winning European product designer, Christoph Behling has a history of creating button designs for Geberit.

SIGMA

INWALL CONCEALED CISTERNS

Suitable for traditional inwall installations allowing design freedom to create a lifestyle bathroom. All Sigma buttons are compatible with Sigma concealed cisterns.
