

Key Features

1. AutoRelease™
2. Express Cycle
3. Hygiene Care
4. Soft Railing
5. Status Display
6. SmartThings Enabled
7. Home Appliances Remote Management
8. 7 Years of Software Updates

1

Automatic steam release

AutoRelease™

Enjoy cleaner, drier dishes with less waiting¹. AutoRelease™ automatically opens the door² at the end of the cycle to release steam and reduce excess moisture. This helps dishes dry faster and more effectively, while keeping the whole process effortless.

2

Super fast cleaning

Express Cycle

Get everyday dishes clean and dry. The Express Cycle is designed for lightly soiled items like cups, cutlery and dinner plates, delivering a quick wash and dry without compromising results. Perfect for busy days, last-minute meals or when you simply need clean dishes back in rotation fast.

3

Sanitised rinsing

Hygiene Care

Rinse with confidence knowing your dishes are hygienically safe to use. With select programs³, the Hygiene Care option extends the final rinse and heats the water to 70°C, delivering a deep, thorough clean that helps eliminate certain bacteria.

4

Move basket easily

Soft Railing

Load and unload heavy dishes without the strain. Soft Railing uses ball-bearing wheels to help reduce friction, so each rack glides in and out smoothly, even when it's full of pots, pans or stacked plates. It keeps movement stable, controlled and effortless, making everyday loading feel noticeably easier.

5

Check status at glance

Status Display

See exactly where your cycle is up to without stepping closer. Three front-facing indicator lights show the dishwasher's progress; cleaning, rinsing, drying or finished, so you can check its status with a quick glance.

6

Connect your life with SmartThings**Wi-Fi Embedded**

Optimise how you use the dishwasher to suit your lifestyle. The SmartThings App⁴ lets you remotely monitor and control it on a smartphone and download specialist programs⁵.

7

Customised cleaning**Download Program**

Customise your cleaning experience. The Download Program option lets you choose from 3 additional specialist programs and instantly download the one you want using the SmartThings⁴ App on your smartphone. You can choose from “Pots and Pans”, “Plastic”, or “Baby Care” cycles.

8

Convenient remote care**Home Appliance Remote Management (HRM)**

Keep your appliance running smoothly with intelligent, always-on monitoring. Home Appliance Remote Management (HRM) predicts⁶ and diagnoses issues early⁷, offers helpful usage tips, and enables remote troubleshooting to resolve problems without a service visit. Enjoy fewer surprises, less downtime and longer lasting reliability.

9

Steady updates of 7 years**7 Years of Software Updates**

Samsung's 7-year commitment to software updates on flagship products⁸ sets a new benchmark for smart home longevity. Your appliance stays up to date with the latest features, performance improvements, system upgrades and enhanced security, keeping it reliable, valuable and future-ready for years to come.

1 Compared to previous freestanding dishwasher.

2 AutoRelease can be turned on/off in the SmartThings App.

3 Not available with the Delicate, Express, Machine Care, Plastic and Baby Care programs.

4 **SmartThings** is available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.

5 “Pots and Pans”, “Plastic”, or “Baby Care” cycle.

6 Includes both fault and non-fault diagnosis. The fault diagnosis is based on an error code on the product while the non-fault diagnosis is a perceived defect that occurs as a usability issue without generating an error code. Certain issues can be detected by AI based on the operational data, regardless of whether it generates an error code or not.

7 Only available on SmartThings-supported models produced after 2018. Requires the SmartThings App, which is available on Android and iOS devices. A Wi-Fi connection and a Samsung account are also required.

8 Available on smart home appliances that are equipped with a Wi-Fi module, released in 2024 and later. It may not be available if the hardware, such as the memory and chip performance, is not supported. Additionally, this support is applicable only for selected Bespoke AI products. The dishwasher range DW90H/24 is included.

SPECIFICATIONS

Model Code	DW70H75YCFE
Material Code	DW70H75YCFESA
EAN Code	8806097931744
RRP	\$1,199

DIMENSION

Net Width	598 mm
Net Height	845 mm
Net Depth	600 mm
Net Weight	45 kg
Gross Width	655 mm
Gross Height	880 mm
Gross Depth	645 mm
Gross Weight	50 kg
