

Key Features

1. SpaceMax™ Technology
2. Super Speed Cycle –39 minutes
3. Bubble Technology
4. Steam Hygiene Cycle
5. Less Microfiber Cycle
6. SmartThings Connectivity
7. AI Energy Mode
8. AI Control
9. Drum Clean+
10. StayClean Drawer
11. 20 Year Motor Warranty¹

Same size outside. Extra 1kg inside.

1

SpaceMax™

With an improved external design, we have increased the washing capacity without changing the size of our washer². So now you can wash up to 11kg with the same external dimensions as our previous 10kg washer.

Wash in 39 minutes³

2

Super Speed Cycle

Cut down on laundry time. Super Speed cycle washes up to a 5kg load in approximately 39 minutes³ with dynamic drum rotation and Speed Spray to help remove detergent quickly and reduce rinse time. It also accelerates spin speed to quickly spin-dry clothes resulting in a quick wash.

Hard on dirt, soft on clothes

3

BubbleWash™ and BubbleSoak™

Enjoy efficient cleaning, even at low temperatures. BubbleWash™ pre-mixes detergent with air and water to quickly penetrate fabric to clean away dirt and help remove stubborn stains. BubbleSoak™ is an optional pre-treatment cycle in which clothes are soaked in bubbles before your wash cycle.

Hygienically clean

4

Steam Hygiene Cycle

Give clothes a deep clean with steam. The powerful Hygiene Steam cycle can help improve the cleaning quality of your wash by releasing steam from the bottom of the drum to thoroughly saturate all clothing items inside. This helps reduce up to 99.9% of certain common bacteria⁴ and allergens⁵.

Help reduce microfiber release⁶

5

Less Microfiber Cycle

Samsung's specially designed Less Microfiber Laundry cycle washes clothes gently to minimise garment agitation which could reduce the amount of microfibers released during washing⁶.

6

Control and monitor from your compatible phone
SmartThings App Enabled⁷

Connect your washer to your compatible smartphone through the SmartThings App⁷ to start or stop your wash cycle from virtually anywhere, get suggestions on optimal cycles, detect detergent levels, monitor energy consumption and more. Give yourself more control instead of letting your laundry control you.

7

Potentially save on your energy consumption⁸**AI Energy Mode**

When you select a course that enables AI Energy Mode, the cycle will activate cold water which could help you reduce the cost of your electricity bill.

8

Intelligent design and control**AI Control**

AI Control personalises your washing experience by remembering your habits, suggesting cycles and displaying timely information⁹. With intelligent recommendations, you can start, stop and set the optimum wash cycle easily. And when paired with a matching dryer, it even automatically selects the optimal drying cycle¹⁰ with the Auto Cycle Link function.

9

Easy maintenance**Drum Clean+**

Keep the door and inside of your washer clean. Drum Clean+ cleans inside your washer to help reduce odour-causing bacteria¹¹ without using harsh chemicals. A frictional force of powerful water jet and fast spinning also helps remove dirt from the rubber door gasket and it notifies you when it needs cleaning¹².

10

Leave nothing behind**StayClean Drawer**

Waste less detergent and save yourself the hassle of removing soap residue. The StayClean Drawer has a specially designed water flushing system that helps ensure most of the detergent is washed away, so the tray stays clean.

11

Incredible performance**20 Year Digital Inverter Motor Warranty¹**

Digital Inverter Technology uses strong magnets for a quiet and powerful performance. By eliminating the use of brushes, you'll enjoy a quiet wash without friction and outstanding performance backed up by our 20 year limited parts warranty¹.

1. 20 year parts warranty on the inverter motor. See warranty Card or visit www.samsung.com.au for details.
2. When compared against WW10T754DBT
3. Based on internal testing using Super Speed at the default settings with a 5kg load, comparing the Cotton 40 degree setting with SuperSpeed..
4. Based on the Intertek test report for the Hygiene steam course. Removes 99.9% of Staphylococcus aureus and Escherichia coli. Individual results may vary.
5. Based on The British Allergy Foundation (BAF) test report for the Hygiene Steam course, Allergy UK considers that this product will, in proper use, reduce exposure house dust mite, cat, dog, grass pollen and fungi.
6. Tested with 2kg load of 100% polyester hoodies, comparing Synthetics cycle on Samsung Conventional model WW4000T and the Less Microfiber cycle on WW7000B. The results may be different depending on the clothes and environment. Tested by the Ocean Wise Plastics Lab.
7. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.
8. Based on internal testing on the WW11BB944AGB model in normal usage conditions.
9. Before 10 washes, the list will remain in its default sequence. Cycle suggestions continuously evolve according to usage patterns.
10. Auto Cycle Link is only available when both the washer and dryer have AI Control and Wi-Fi connected.
11. Eliminates 99.9% of biofilm bacteria from the tub-insert carriers of the washing machine. Based on testing by Intertek of the Drum Clean + cycle.
12. Provides a notification after every 40 cycles.

SPECIFICATIONS

Model Code	WW11CG604DLB
Material Code	WW11CG604DLBSA
