Vario gas cooktop 200 series  
60 cm, Natural gas 10 mbar  
VG264220AU

- Mechanical power level regulation for 9 power levels, with exact setting and reproduction of flame size
- Multi-ring burner of solid, heat-resistant brass as used in professional kitchen
- Solid smooth-surface cast pan supports
- Control panel for comfortable and secure operation
- Can be combined with the cooktops of the Vario 200 series to a harmonic unity

Control panel for comfortable and secure operation

Mechanical power level regulation for 9 power levels, with exact setting and reproduction of flame size

Solid smooth-surface cast iron pan supports for easy and safe positioning of cookware

#### Cooking zones

2 high output burner with 10.8 MJ/h, suitable for pots up to max. ø 22 cm.

2 standard burners with 6.8 MJ/h, suitable for pots up to max. ø 20 cm.

#### Handling

Control knobs with illuminated ring.

Integrated control panel.

One-handed operation.

Electric ignition.

#### Features

Two-part cast iron pan support with continuous pot surface.

Enamelled burner cover.

#### Safety

Thermoelectric safety pilot.

Residual heat indicator.

Operation indicator.

#### Planning notes

Appliance can be snapped into the worktop from above.

A minimum lateral clearance of at least 150 mm from adjacent heat-sensitive furniture or contact surfaces must be observed or thermal insulation fitted.

With a total connected load of more than 39.6 MJ/h local regulations concerning room ventilation, room size and combination of extraction or recirculation hoods must be observed. Minimum clearance between gas cooktop(s) with more than 39.6 MJ/h (11kW) and ventilation hood 70 cm.

No intermediate shelf required.

Appliance weight: approx. 15.

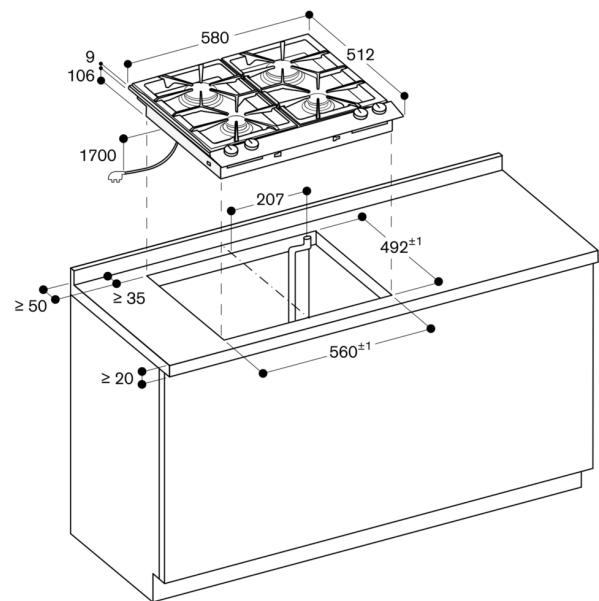

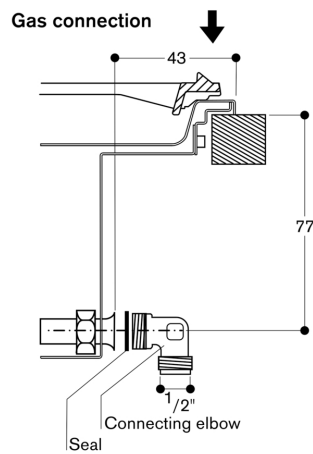

#### Connection

Total connected load gas 35.2 MJ/h

Total connected load electric 10.0 W.

Connecting cable 1.7 m with plug.

Natural gas 10 mbar

Minimum distance from the appliance cut-out to the side wall 150 mm.  
measurements in mm
