

DREAME

DreameBot L10s Pro Ultra Heat

Robot Vacuum and Mop with
Auto-Empty and Mop Self-Cleaning

Extensive automation. Worry-free life.

Our latest L10s Pro Ultra with built-in MopExtend™ Technology reshapes the future of advanced robotic vacuum cleaners. This fully automated robot vacuum features Dreame's exclusive MopExtend™ Technology, a powerful Vormax™ Suction System, and easy auto robot maintenance, perfect for your worry-free cleaning.

Dreame's Highlights

- ⑩ MopExtend™ Technology
- ⑩ Auto Robot Care and Maintenance with 58°C Hot Water
- ⑩ Powerful Vormax™ Suction
- ⑩ Precise CleanGenius™
- ⑩ Smart Pathfinder™ Navigation
- ⑩ DuoScrub™ Mopping System

We will change the "dreame" logo to the capital "DREAME" logo soon, there's no other difference from the final one except this.

Customer Benefits

- ⑩ Enhanced and detailed cleaning, including baseboards, chair feet, and other hard-to-clean corners.
- ⑩ Optimized vacuuming efficiency to pull household debris up from rugs, out of carpets, and off hard floors.

- ⑩ Worry-free cleaning experience with auto robot care and maintenance.
- ⑩ Automatic room-by-room cleaning recommendations for a tidy home.

Extensive automation. Worry-free life.

Advanced MopExtend™ Technology

Thanks to the technology's advanced edge recognition, mop extension, and its retraction, L10s Pro Ultra ensures flexible dirt pickup from the inside corner of the wall, irregular corners, and along baseboards.

Auto Robot Care and

Maintenance with 58°C Hot Water

Auto care in one robot: dust collection, mop washing, and drying, water and solution adding, auto water refilling and draining.

Precise CleanGenius™

The advanced dirt detection technology combined with smart sensors accurately identifies the dirt level of your floor. Our robot vacuum automatically comes back to mop it twice* for your thoroughly clean home.

Smart Pathfinder™ Navigation

A combination of AI Action and 3D Structured Light generates precise maps for cleaning routes to move through obstacles.

DuoScrub™ Mopping System

The dual rotary mops are pressed closely to the floor, rotating at an impressive speed, while an in-built pressurized scrubbing solution efficiently removes dirt. An ample water tank consistently keeps the mop wet, so our vacuum can wash your floors for as long as you need.

Powerful Vormax™ Suction

The powerful Vormax™ Suction System packs 7,000Pa** of suction power for highly efficient vacuuming.

*Mop them twice: Only in intensive carpet cleaning mode.
**7,000Pa: Based on tests in Dreame's lab. Actual performance may vary depending on the real-world environment and usage.

Advanced MopExtend™ Technology

Ready for a new, upgraded level of worry-free life? The **first AI-driven MopExtend™ Technology** in the world establishes L10s Pro Ultra as a flagship robot vacuum cleaner in the advanced vacuum segment.

A built-in MopExtend™ Technology reaches tight and narrow spaces by effortlessly stretching its "robot arm". It smoothly **removes tiny pesky pops, food crumbs, and even party spills** from the corners of your home.

In-Depth Edge Cleaning — Automatic mop extension and retraction enable its adjustment to cleaning in different scenarios. From now on, stop worrying about your robot **bumping into kitchen chairs or stuck under the sofa**.

Thanks to the flexible design and built-in multiple sensors, the MopExtend™ Technology reaches not only table and chair legs, door cracks, and steps, but also deep cleans **right angles of the wall, irregular corners, and skirting boards**. Get a deeper clean throughout your home with the advanced MopExtend™ Technology.

Automatic Robot Care and Maintenance

Enjoy hands-free cleaning with the 6-in-1 versatile and fully automatic base station*, which takes care of and maintains itself.

Auto-Empty/Hands-Free up to 75 Days — Empties itself for up to 75 days with DualBoost 2.0 technology and a 3.2L dust bag, so your cleanup is simplified into throwing away the bag.

Mop Self-Cleaning with 58°C Hot Water — A strong combination of an ample 4L used water tank, a 4.5L clean water tank, and the built-in solution helps L10s Pro Ultra wash its mops in the base station using hot water when mops get dirty or finished cleaning.

Automatic Mop Drying with Hot Air — Rapidly dries its mops with hot air after cleanup is complete to help prevent mildew formation and bad odors.

Auto Water Refilling — Refills the robot's water tank to keep the mop wet, so our vacuum can uninterruptedly wash your floors.

Automatic Solution Adding — Fills the robot with the proper solution/water ratio to make your hardwood floors gleam.

Water Hookup Kit for Auto Refilling and Draining** — The Water Hookup Kit makes fully automatic cleaning a reality. Connect one pipe to a water supply and the other to a drain to refill clean water and drain dirty water. Forget about lifting, filling, and carrying heavy water tanks.

6-in-1 versatile and fully automatic base station: Refers to the combination of auto-empty, auto mop self-cleaning, auto mop drying, auto water refilling, and auto solution refilling.

**Purchase separately. Support in some regions.

Powerful Vormax™ Suction

Bye Hair, Bye Dirt, Bye Dust — Hair, dirt, dust, and other debris have nowhere to hide. The powerful Vormax™ Suction System packs 7,000Pa of suction power for remarkable vacuuming.

Explore fast and mighty vacuuming while lying down on the sofa. Its powerful Noise Reduction system will not disturb you while watching TV. Thanks to its upgraded air duct Turbo Force system, L10s Pro Ultra Heat Cleaning Edition rapidly picks up **food crumbs, litter, or pet hair**, ensuring a consistent barrier-free airflow. Our robot vacuum quickly adapts from hardwood floors to carpets, easily dealing with stubborn messes and debris.

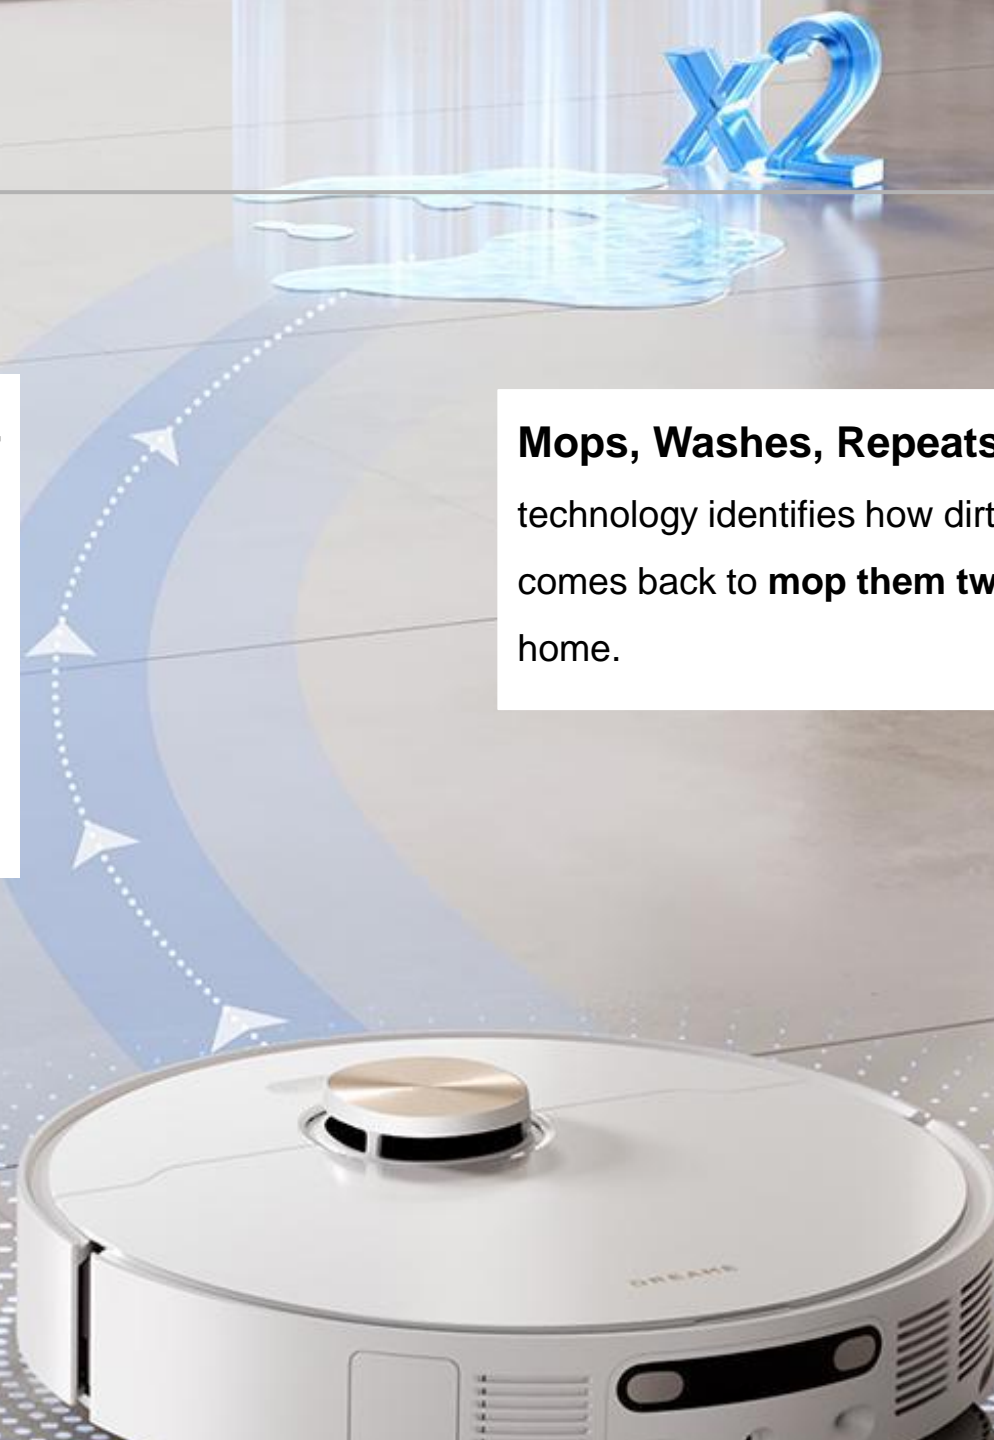

DREAME

Precise CleanGenius™

Automatic Room-by-Room Cleaning Strategy —

With the help of AI Algorithm, L10s Pro Ultra learns your home layout and **recommends strategies** to make your cleanup easy. Get a **customized approach to every room** depending on its layout, including floor type and furniture placement.

Mops, Washes, Repeats — Advanced dirt detection technology identifies how dirty the mops and floors are and comes back to **mop them twice*** for your thoroughly clean home.

DREAME

Navigates Freely — With the help of AI Action and 3D Structured Light, our home expert identifies and avoids up to **55+ types of objects*** like shoes, cables, and others. Experience detailed and time-saving cleaning with accurate obstacle avoidance.

Smart Pathfinder™ Navigation

Learns Your Home — Sophisticated Pathfinder™ Smart Navigation technology enables **fast mapping** and accurate path planning for neat navigation **under the sofa and around kitchen chairs** without getting stuck in tight spaces.

*55+ types of objects: Based on tests in Dreame's lab.

Scrubs Out Sticky Messes — The DuoScrub™ Mopping System utilizes rotary and pressurized scrubbing that removes dirt from your sticky floors, keeping it at bay. A **built-in 80ml water tank** ensures easy auto water refill on the go for cleaning without any effort.

Smart Carpet Cleaning Strategy

Get rid of dirt, debris, pet hair, and other messes easily with customized carpet cleaning.

Customized Carpet Cleaning Strategy — Choose the most suitable way to clean the carpet up to your home environment in the Dreamehome app.

4 ways to clean carpets:

- **Mops Raising** — Lifts the mops up to 10.5mm, suitable for low-pile carpets.
- **Carpet Avoidance** — Avoids the carpets during cleaning.
- **Carpet Boost** — Increases suction to vacuum once.
- **Intensive Carpet Cleaning** — Vacuums twice at reduced speed, ensuring a thorough carpet clean-up.
