

Wine cabinet designed for cellaring large collections. Versatile in that it can be set as a Single-Zone for cellaring both reds and whites or as Multi-Temp for serving different styles/varietals at perfect drinking temperatures.

RRP AUS \$8,349.00 AUS \$8,349.00

Product Details

FEATURES

Double glazed door, with anti-UV glass	Soft closing door	Inverter compressor	Adjustable wooden shelves
LED internal lighting	Winter function heating system	Digital temperature display	Audio and visual alarm
Security lock			

BENEFITS

<p>Multi-Temp</p> <p>Vintec versatile Multi-Temp technology is designed for serving different varietals at their perfect individual drinking temperatures. It provides a gradient of temperature throughout the cabinet, which is ideal for keeping all wine styles at their optimal drinking temperature.</p>	<p>Stable Temperature</p> <p>Our wine cabinets maintain a stable temperature to keep your wine in perfect cellaring conditions. This is thanks to double glazed glass, insulated side panels and interactions between a compressor and thermostat. (Digital display varies by model)</p>
<p>Winter Heating Function</p> <p>In some areas, the temperature in winter could drop drastically. Our wine cabinets are equipped with a heating function to deliver a constant temperature through the cellar all year round.</p>	<p>UV Protected Dark Storage Area</p> <p>UV rays negatively impact the quality of your wine. Our cabinets eliminate this threat by incorporating UV treated tinted glass doors, dark interiors and dimmed internal LED lights.</p>
<p>No Vibration</p> <p>To protect the storage life and quality of your wine, our cabinets have been designed to create a vibration proof environment by including an externally housed compressor, rubber shock absorbers and vibration absorbing wooden shelves.</p>
