

# NN-CS894SQPQ

32L Flatbed Stainless Inverter Sensor Steam Convection

# CS894S

**INVERTER**

## KEY FEATURES & BENEFITS

### Steam Cooking

The CS894S is the first Panasonic Microwave Oven to offer pure Steam cooking, for delicious & healthy results. The steam power is 38% higher than other steam models, and allow for cooking without microwave. The humidity sensor calculates cooking time automatically. The direct injection into the cavity, and a cooking space sealed by the tray, provide steam at high density.

### Inverter Technology

Panasonic Inverter technology delivers graduated power continuously so the food is evenly cooked, preserving texture and flavour, and preventing to spill-overs, burnt edges and cold spots.

### Genius Sensor Cooking

Pre-programmed cooking cycles with sensor automatically adjusts the cooking time & power levels, with a touch of a button.

### Flatbed Design

This exclusive No-Turntable design allows for greater space inside the microwave, providing the flexibility to use rectangular or larger dishes. This clear interior design also makes the microwave easier to clean.

### Total Combination

All cooking possibilities are available and can be used at the same time so you can experience the best of each combination.

## SPECIFICATIONS
