MaxiView™ enlarged window

IsoFront™ - A genuine cooler door

SoftMotion™ hinges

FloodLight™ system

Anti-fingerprint stainless steel

BENEFITS

ADD STEAM FOR CRISPIER RESULTS

The SteamBake button in this oven adds steam at the beginning of the baking process. The steam cooking keeps the dough moist on the surface to create a golden colour and tasty crust, while the centre stays soft and tender.

SoftMotion™ Hinges

The AEG SoftMotion™ hinges remind the consumer of the quality of their oven every time they effortlessly open and close the door.

MaxiView™ Enlarged Window

The enlarged window on the door is 20% larger than previous models, so now you can see exactly what's happening throughout the entire cooking process.

ThermiCAir™

The ThermiCAir™ circulates hot air evenly throughout the interior, heating up the oven faster and reducing cooking temperatures by up to 20%, saving you both time and energy.

Multi-function Oven

This multi-function oven offers both fan forced and conventional cooking options, so you can get the best results from whatever you're cooking.
