BENEFITS

SMART REMOTE DISHWASHING

Experience customised dishwashing by connecting your appliances to The AEG App. Get guidance of which program to run based on load, time and soil level. Control off-peak hours to run the dishwasher to save energy cost. The app summarises and provides ECO reports. The app sends reminders and guides on how to maintain the dishwasher and the Machine Care program.

DARE TO USE EVERY KITCHEN TOOL

The MaxiFlex drawer is designed to fit cutlery and utensils of different shapes and sizes. Its increased depth offers greater capacity in each load. Whether large or awkwardly-shaped, the customisable dividers and deep drawer mean everything can be loaded with ease.

ULTIMATE TOUGH CLEANING

Get exceptional results with SprayZone function that activates a dedicated area specially designed for dishes with tough stains and food residue. The intensive cleaning treatment with high water pressure in the dedicated area ensures removal of even the most stubborn stains and residues without pre-rinsing or soaking.

GENTLE CARE FOR YOUR GLASSWARE

The unique SoftGrip feature ensures that the stem and foot of every glass are held gently but firmly in exactly the right position throughout the duration of the program. Protected from vibration. Removing the risk of breakages. And with SoftSpikes you no longer need to spend time handwashing delicate glasses. The soft material gently holds glasses securely in place and protects them from cracks and breakage.

IMPROVE WASHING RESULTS

ExtraPower function improves the washing results of the selected program. The extra boost in wash temperature and duration rids stubborn stains from your kitchenware with immaculate results.

HYGIENIC CARE FOR YOUR DISHES

The ExtraHygiene function gives you maximum cleaning performance with hygienic care. With the ExtraHygiene function, the final rinse phase heats up to 69°C and keeps the temperature high for minimum 10 minutes to sanitize your dishes.

HIGH PERFORMANCE. LOW ENERGY

By selecting the EcoProgram you can rest assured that your dishes will be cleaned using the lowest possible amount of energy and water for the load, without compromising on wash performance.

OPTIMISE TIME, ENERGY AND WATER

AutoSense detects the soil level and load size and adjusts settings accordingly to deliver an optimised wash program for the load. This delivers incredible cleaning performance.
