Air-powered glam in a snap

Dreame AirStyle Pro

7-in-1 Hair Drying & Styling Tool Kit

AirStyle Pro empowers users to achieve salon-inspired results at home with precision and control. Utilizing high-speed jet airflow, it efficiently dries and styles hair without overheating, preserving hair integrity and reducing frizz. You can mix and match a variety of attachments to create multiple straight and curled hairstyles, while the instant cool air function quickly sets curls for long-lasting* results.

O Key Features

Custom Combos for Versatile Looks

AirStyle Pro features 7 interchangeable attachments, providing customizable options for a variety of hairstyles. Whether curling, smoothing, or adding volume, it offers the flexibility to achieve diverse looks tailored to your preferences.

Powerful Airflow to Create **Quick Styles**

The combination of high-speed airflow and high-density air outlets delivers consistent, powerful airflow that gently embraces each strand, shaping your hair while reducing frizz for sleek, polished

NTC Heat Monitor Enhances **Consistent Protection**

Advanced temperature monitoring system, which operates at 300 times per second*, effectively prevents overheating. With 3 customizable temperature settings*, you can optimize both styling and drying to meet your specific needs.

Effortless Styling with Intuitive Design

The snap-on magnetic design allows quick attachment changes and a one-press cold shot to set and lock in curls. The 360° anti-tangle cord ensures smooth styling without interruption.
