

AEG

DGE7670HB

52cm integrated rangehood in dark stainless steel with quieter Inverter motor, LED strip lighting, and Hob2Hood function.

Product Details

FEATURES

Inverter motor Inverter motors are durable, energy efficient, and removes odours quietly, even at max power.	Quiet extraction 53dBA This hood efficiently extracts odours and vapours at a low noise level of 53dBA, even on high speed.	Hob2Hood Hob2Hood automatically adjusts your hood settings so you can focus on creating delicious dishes.	PowerBoost PowerBoost increases airflow for a couple of minutes to prevent strong odours from lingering.
LED lighting Bright LEDs clearly illuminate your hob and are more energy efficient than regular halogen bulbs.	Delay off Delay off keeps your hood running after cooking to keep the kitchen air fresh while you eat.	Dishwasher-safe filters Dishwasher-safe filters are easy to clean and better for the environment than single use filters.	Filter indicator Notifies you when filters need replacing to maintain optimum performance.

BENEFITS

QUIETER AND EFFICIENT

With inverter motor, your extractor hood can now remove cooking odours from your kitchen more quietly, even when on high speed, so that you can focus on cooking delicious dishes in a clean and quieter environment. It is not only quieter and powerful but energy efficient and highly durable.

QUIETER EXTRACTION 53DBA

Using innovative technology, this hood efficiently clears your kitchen of cooking odours and vapours at a low noise level of 53dBA, even on high speed. This provides you with a quieter cooking environment without compromising on extraction performance.

A FRESHER KITCHEN. HANDS-FREE.

The wireless Hob2Hood function automatically adjusts your hood settings based on what you are cooking, leaving your hands free to focus on the food. The hood lights will automatically illuminate when your hob turns on and the fan speed will adjust depending on how powerfully you are cooking with the hob. The hood can also be controlled manually if you would prefer.

WHY NOT TURN UP THE POWER

When intensely fragranced foods such as onions and garlic hit smoking oil in the wok or pan, it's time to use PowerBoost. Simply increase the airflow power for a minute to quickly remove smoke and strong odours

PERFECTLY ILLUMINATED SURFACES

Bright LED lighting clearly illuminates your hob and is also more energy efficient and environmentally friendly than traditional halogen lighting.

CLEAR THE KITCHEN AIR

The delay-off function will activate after you have turned off your hood to continue eliminating odours and keep your kitchen smelling fresh after cooking. So, while you are eating, the hood will switch off automatically after 5-15 minutes.

SO EASY TO CLEAN

For an extractor to work efficiently the filters need to be clean and free from the cooking grease that builds up over time. All AEG filters are dishwasher-safe, making cleaning as simple as possible, whilst also being better for the environment than single use filters.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	5
Type of Rangehood	integrated
Nominal width (cm)	52
Finish of Rangehood	Dark stainless steel

MOTOR/FAN

Number of fans	1
Number of fans speeds	4
Variable speed control	Yes
Type of motor	DC Inverter motor
Maximum airflow M3/Hr	715
Noise level dB high	53
Noise level dB low	43
Number of motors	1
Wattage of motor	137

DIMENSIONS
