

CPF90I1PSB2

Cooker size	90x60 cm
N. of cavities with energy label	1
Cavity heat source	ELECTRICITY
Hob type	Induction
Type of main oven	Thermoseal
Cleaning system main oven	Pyrolitic
Steam technology	Direct steam
EAN code	8017709367169
Energy efficiency class	A

Aesthetics

Design	Flush fit	Control knobs	Smeg Portofino
Front panel color	Stainless steel	Controls colour	Stainless steel
Command panel finish	Finger friendly stainless steel	No. of controls	7
Aesthetic	Portofino	Serigraphy colour	Black
Logo	assembled 50's	Display	LCD
Colour	Storm Blue	Door	With frame
Logo position	Facia below the oven	Glass type	Grey
Finishing	Matte	Handle	Smeg Portofino
Upstand	Yes	Handle Colour	Brushed stainless steel
Hob colour	Stainless steel	Storage compartment	Push pull
Type of control setting	Control knobs	Feet	Black
Slider	White	Plinth	Black

Programs / Functions

No. of cooking functions	10
--------------------------	----

Traditional cooking functions

 Static	 Fan assisted	 Circulaire
 Turbo	 Eco	 Small grill
 Large grill	 Fan grill (large)	 Base
 Fan assisted bottom		

Other functions

 Defrost by time	 Defrost by weight	 Proving
 Sabbath	BBQ	 Pizza
 Airfry		

Recipes Yes

Cleaning functions

 Pyrolytic	 Pyrolytic eco	 Vapour Clean
--	---	--

Automatic programs 20

Hob options

 End cooking timer	5	 Multizone Option	Yes
 Limited Power	Yes	 Auto-vent 2.0	Yes
 Consumption Mode			
 Limited Power	7400 W		
 Consumption Mode in W			

Hob technical features

Total no. of cook zones 5

Front left - Induction - multizone - 2.10 kW - Booster 3.00 kW - 19.5x19.5 cm

Rear left - Induction - multizone - 2.10 kW - Booster 3.00 kW - 19.5x19.5 cm

Central - Induction - single - 2.30 kW - Booster 3.00 kW - 27.0x27.0 cm

Rear right - Induction - multizone - 2.10 kW - Booster 3.00 kW - 19.5x19.5 cm

Front right - Induction - multizone - 2.10 kW - Booster 3.00 kW - 19.5x19.5 cm

Booster power left 3,7 kW
Multizone

Minimum pan diameter indication Yes

Selected zone indicator Yes

Booster power right Multizone	3,7 kW	Residual heat indicator	Yes
Automatic switch off when overheat	Yes		
Automatic pan detection	Yes		

Main Oven Technical Features

No. of lights	2	Total no. of door glasses	4
Fan number	3	No. of thermo-reflective door glasses	3
Net volume of the cavity	105 l	Safety Thermostat	Yes
Gross volume, 1st cavity	129 l	Heating suspended when door is opened	Yes
Cavity material	Ever Clean enamel	Cooling system	Tangential
No. of shelves	5	Door Lock During Pyrolysis	Yes
Type of shelves	Metal racks	Usable cavity space dimensions (HxWxD)	371x724x418 mm
Light type	Halogen	Temperature control	Electronic
Light Power	40 W	Lower heating element power	1700 W
Cooking time setting	Start and Stop	Upper heating element - Power	1200 W
Light when oven door is open	Yes	Grill element	1700 W
Door opening	Flap down	Large grill - Power	2900 W
Removable door	Yes	Circular heating element - Power	2 x 1850 W
Full glass inner door	Yes	Grill type	Electric
Removable inner door	Yes	Soft Close system	Yes

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	280 °C

Accessories included for Main Oven & Hob

Rack with back and side stop	1	Grill mesh	1
20mm deep tray	1	Telescopic Guide rails, total Extraction	1
40mm deep tray	1	Meat Probe	1

Electrical Connection

Electrical connection rating	11400 W	Type of electric cable	Yes, Double and Three Phase
Current	50 A	Frequency	50/60 Hz
Voltage	220-240 V	Terminal block	5 poles
Voltage 2 (V)	380-415 V	Plug	No
Cable testing	Yes		

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

SFLK1

Child lock

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

BBQ9

teflon-coated aluminum grid for 90 cm cavity

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

KITPC9X9

Splashback, 90 cm, for Sinfonia and Portofino pyrolytic cookers

SCRP

Induction and ceramic hobs and teppanyaki scraper

STONE9

Rectangular pizza stone, suitable for 90cm wide ovens. Dimensions W64 x H2.3 x D37.5cm. Ideal for cooking pizza with the same aroma and crispness as are typical of a wood-fired oven. Can also be used for baking bread, focaccias and other recipes such as pies and flans or biscuits

Symbols glossary

	Triple Fan Technology: The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.		Automatic merge of zones for a bigger area
	Connection between hob and hood		A: Product drying performance, measured from A+++ to D / G depending on the product family
	Installation in column: Installation in column		Knobs control
	Air cooling system: to ensure a safe surface temperatures.		Defrost by time: with this function the time of thawing of foods are determined automatically.
	Defrost by weight: With this function the defrosting time is determined		A DIRECT STEAM oven has 1 steam cooking function to which the user can MANUALLY add steam. The function is activated when the user turns the function knob to the STEAM ON position, and deactivated when the user turns the steam knob to the STEAM OFF position. The user decides at the start of the cooking process how much water to load, up to 250ml. The water in the cavity then becomes steam during the cooking process.
	Quadruple glazed: Number of glazed doors.		ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.
	Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.		Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.
	Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.		Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.

 Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.	 ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
 Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.	 Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
 Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.	 Pizza function: The simultaneous operation of three elements ensures an optimum cooking facility when used with the Smeg pizza stone.
 Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.	 Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.
 Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.	 All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.
 The inner door glass: can be removed with a few quick movements for cleaning.	 Side lights: Two opposing side lights increase visibility inside the oven.
 Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.	 Pyrolytic: Pyrolytic cleaning cycles can be selected as necessary to automatically clean the oven interior.
 Pyrolytic: The Eco pyrolytic cleaning function can be selected when the oven has a lighter build up of dirt. This function has a maximum duration of 1.5 hours.	 Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted
 Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.	 Sabbath: This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works

-

|--|---|---|--|
|  | The oven cavity has 5 different cooking levels. |  | Soft close: all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly. |
|  | Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely. |  | Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings. |
|  | Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time. |  | Vapour Clean: a simple cleaning function using steam to loosen deposits in the oven cavity. |
|  | The capacity indicates the amount of usable space in the oven cavity in litres. |  | The new EVOscreen display is enhanced with new, optimised colour graphics: 5 touch buttons control functions and parameters in an extremely simple way. |
|  | Dedicated cooking function for the Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. | | |
