4	INSTALLATION INSTRUCTIONS	36

1 GENERAL INFORMATION

These are the mounting instructions for the Novy unit device on the cover. Carefully read the safety instructions, mounting instructions and user manual before installation and putting it into operation.

The safety instructions are listed in a separate booklet supplied with the appliance and listed on our website www.novy.com.

Follow the safety instructions, mounting instructions and user manual to prevent injury and material damage.

This manual makes use of a number of symbols. The meaning of these symbols are given below.

Symbol	Meaning	Action
	Indication	Explanation of an indication on the device.
	Information/ Warning	This symbol indicates an important tip or a dangerous situation.

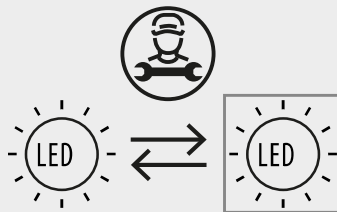

2 INSTALLATION GUIDELINES

 This product contains an ambient light source of energy efficiency class F.

 This product contains a functional light source of energy efficiency class E.

 The product should only be installed by a qualified and trained installer.

 Light source (LED only) and driver can only be replaced by a certified installer.

 Lighting adapter can only be replaced by a certified installer.

 Turn off the power to the designated power cable during installation.

 Provide an on-off switch at the mains power supply.

3 SUPPLIES

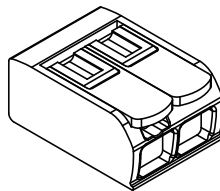

Check if the necessary accessories are included.

1x 70000330

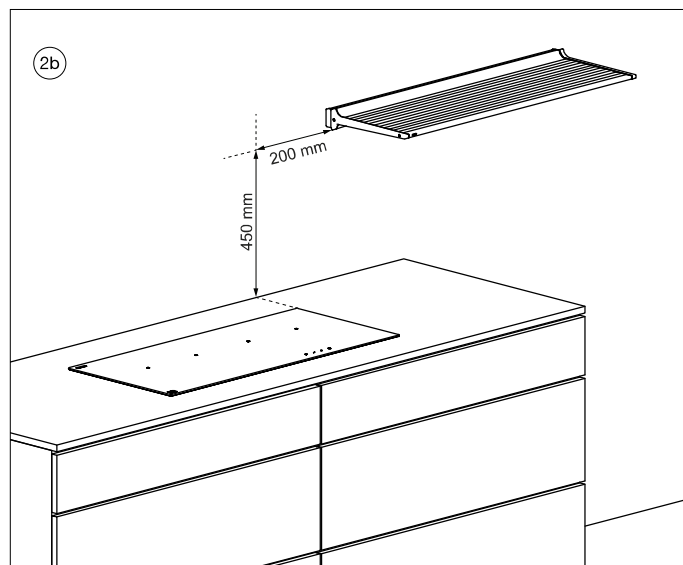

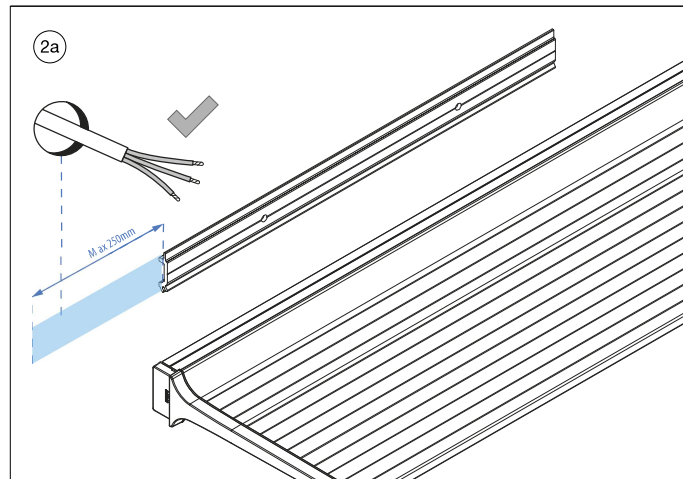

3x 70000251

black: 1x 994045
white: 1x 994046

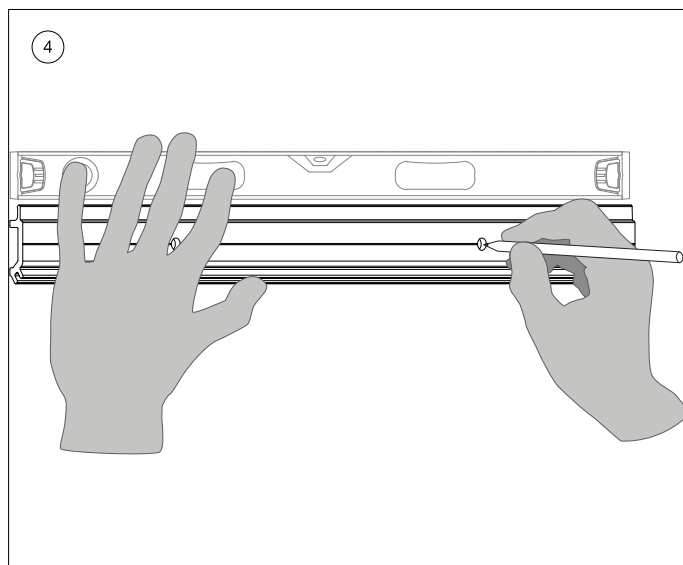

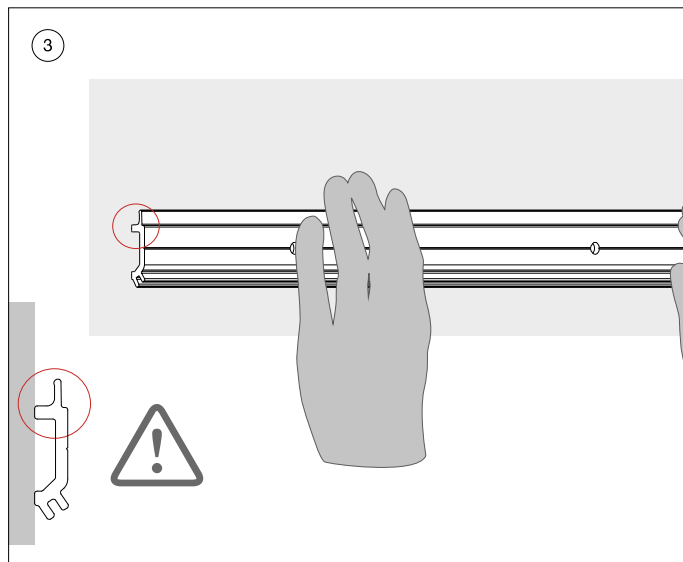

4 INSTALLATION INSTRUCTIONS

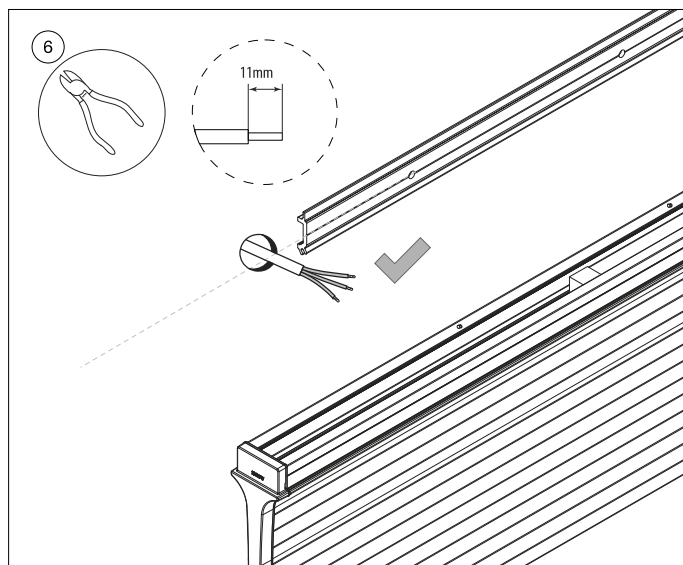

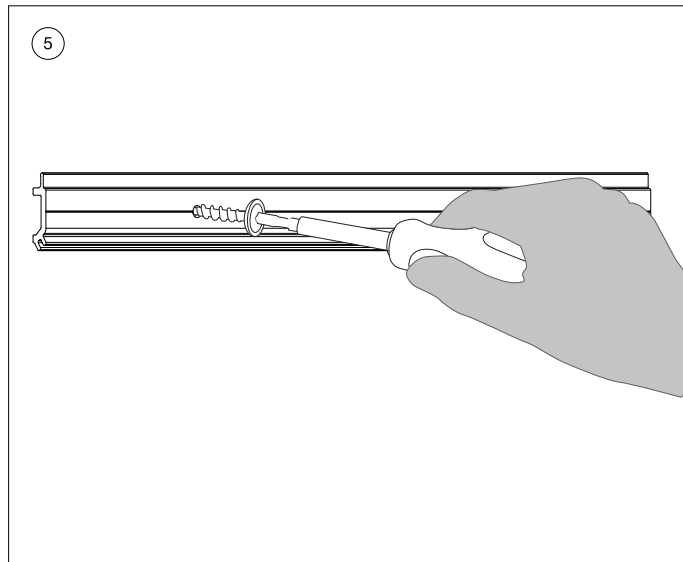

- 2a Preferably provide the power supply on the left side of the fixture. This ensures that there is sufficient space for the electrical connection.
- 2 Determine the desired position of the Novy Shelf/Novy Shelf Pro. Ensure there is a minimum distance of 45 cm between the fixture and the worktop to guarantee safety and functionality.

CAUTION: Do not place the Novy Shelf/Novy Shelf Pro directly above a cooking hob without an integrated extractor. This can negatively affect the operation of the device.

- ③ Position the wall bracket at the desired location for the Novy Shelf/Novy Shelf Pro.
- ④ Use a level to ensure the bracket is perfectly horizontal.
Mark the drill holes on the wall once the position is determined.

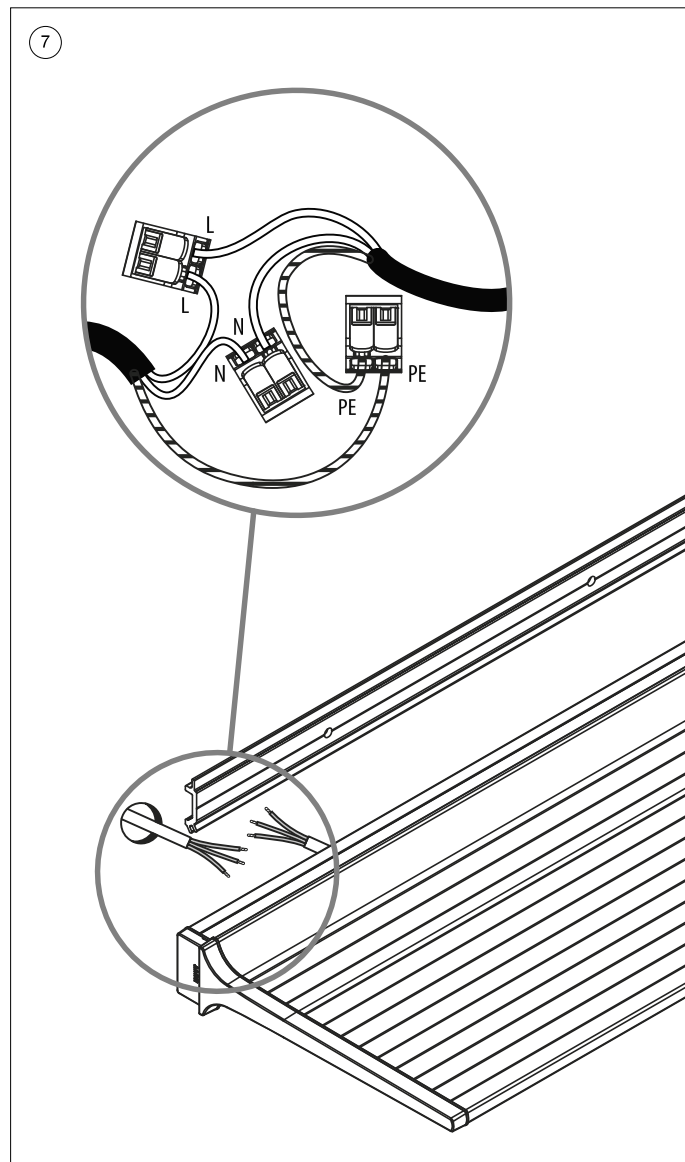

- ⑤ Drill the marked holes and firmly attach the wall bracket to the wall.

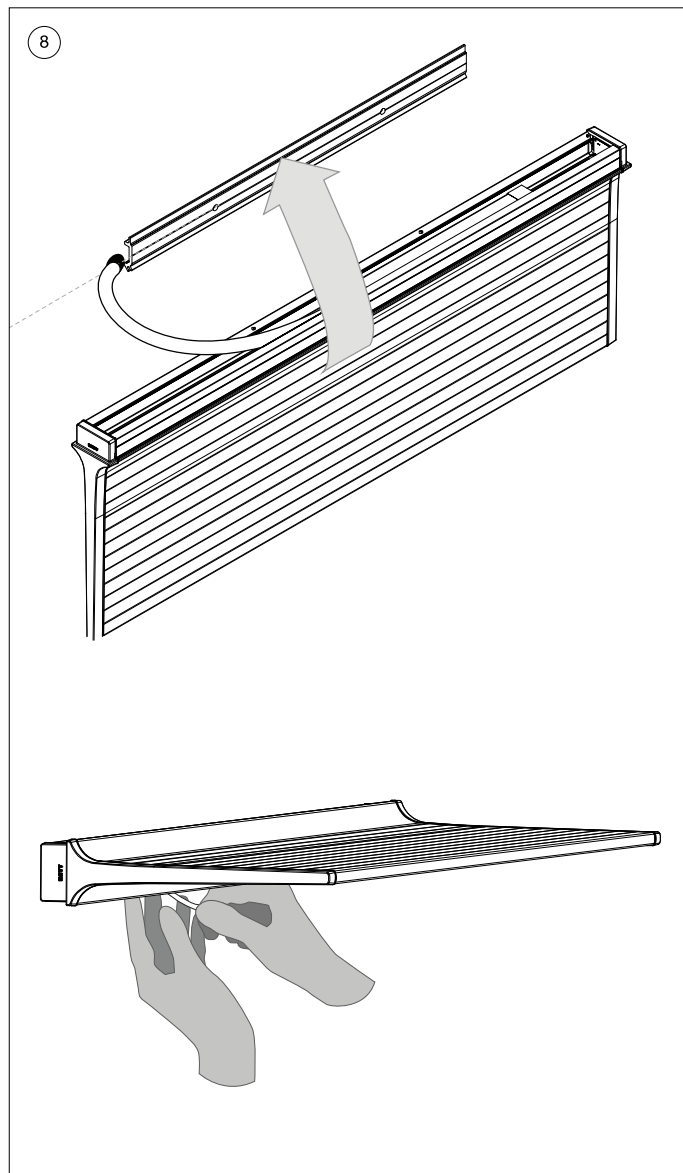

CAUTION: Choose the appropriate fastening material based on the type of wall.

- ⑥ Provide an opening for the electrical connection cable from the wall.

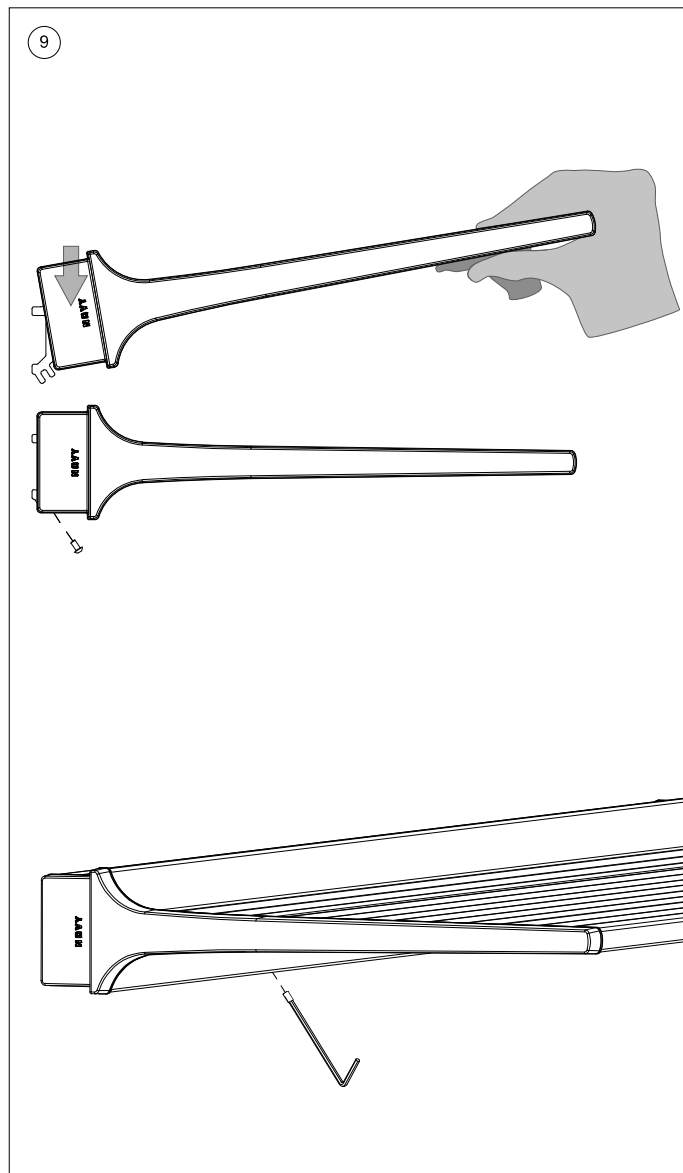

- ⑦ Connect the electrical cables using the supplied terminal connectors. Match and connect the corresponding wires: phase (brown) to phase, neutral (blue) to neutral, and earth (yellow/green) to earth. Ensure that all wires are securely fixed in the terminals.

8 Mount the fixture on the wall bracket.

Tidy away any excess cable inside the fixture if necessary.

- 9 Secure the fixture to the wall bracket using the Allen screws at the bottom of the bracket.
