Interior light	LED ceiling lighting
Features	
Door hinges	Reversible door hinging, right
Replaceable door seal	yes
EAN-Nr.	9005382260579

Features

Display lock

It's easy to unintentionally change the settings on the beverage fridge. That's why your Liebherr has a display lock. It reliably prevents unintended changes to the settings. Of course, you can also easily deactivate the display lock when needed.

FreshAir activated charcoal filter

Unpleasant odours don't stand a chance in your Liebherr: the FreshAir activated charcoal filter ensures consistently fresh air inside. Positioned directly in the airflow, it neutralises odours effectively and helps maintain a pleasant environment. A convenient display reminds you when it's time to replace the filter.

Glass shelves with BlackSteel-look decorative trims

Practical elegance for all your beverages: transparent glass shelves make storing different bottles effortless – you can easily adjust the height of the shelves with a single move. The BlackSteel-look decorative trims add a modern and stylish touch to the interior.

LED ceiling lighting

You want to grab your favourite drink quickly – the LED ceiling lighting makes it easy: it brightly illuminates the interior and highlights your drinks selection beautifully. Positioned at the front, the LEDs ensure no bottle is left in the shade.

Metal shelf with wooden front

Your beverages deserve first-class storage – and the metal shelves with wooden front are just perfect for this: they combine elegance with maximum functionality, as they give the bottles a stable hold while enhancing the aesthetic appeal of your beverage fridge. Discover a solution for storing your beverages that is just as durable as stylish.

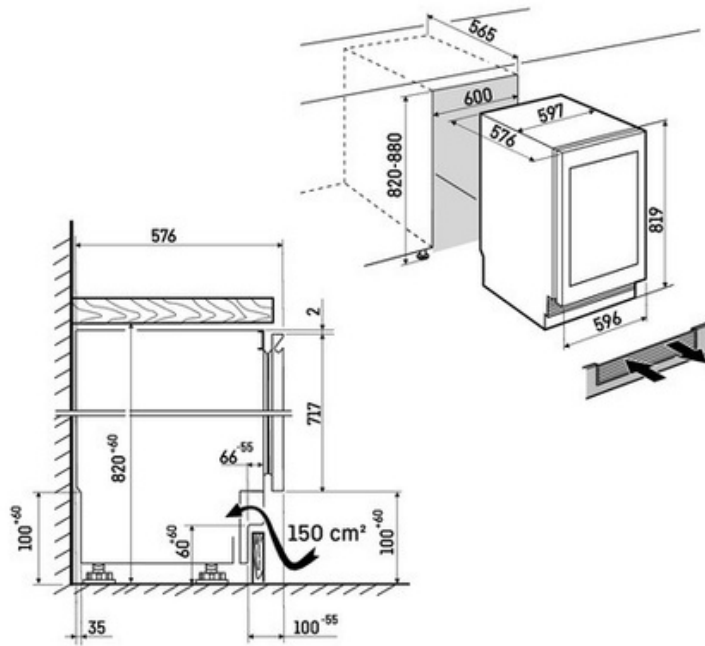

Power failure alarm

During a party, you might not always keep an eye on your beverage fridge. But no worries: it reliably sounds the alarm in case of a power failure. The display shows the highest temperature reached. And you'll never be alerted unnecessarily – if there's no critical rise in temperature during a brief outage, the alarm stays silent.
