

DWA6214W SMEG WHITE FREESTANDING DISHWASHER

ORBITAL WASH SYSTEM

Smeg's orbital wash system has a major spray arm and satellite spray arm which spins ten times for every single revolution of the major spray arm to ensure water is thoroughly distributed in-between every piece in the wash for exceptional results.

Child safety lock

A must for families with young children, Smeg has developed an electronic system for locking the dishwasher controls. Children can press the buttons without interrupting the wash program

ACTIVE ACQUASTOP

Active Acquastop electronically determines when and how much water to let into the dishwasher, automatically controlling the water feed at the tap. It's a major advantage of a Smeg dishwasher, because there is no water in the hose and therefore no building water pressure, where problems most often occur. Active Acquastop is one of five distinctive water safety and flood prevention features in all Smeg dishwashers.

EAN 8017709217563

Size	598mmW x 600mmD x 850mmH
Capacity	14 Place settings
Finish	White
Display	LED Lights
Programs	5
End of cycle indicator	Acoustic signal
Baskets	2 Levels
