BENEFITS

| | |
|---|---|
| <p>MATTE BLACK SOPHISTICATION Make a powerful visual statement in your kitchen with an innovative induction cooktop that blends elegance with innovation. The matte black finish is less reflective than a standard ceramic glass surface for a modern design aesthetic. This premium matte black cooktop exudes a sophisticated style that will enhance every kitchen design, from contemporary to classic.</p> | <p>LONG LASTING PROTECTION Experience the superior protection of the unique SaphirMatt ceramic glass with scratch-resistant properties that surpass those of conventional ceramic cooktop surfaces*. Effectively shielding from abrasions during everyday use ensures your cooktop maintains a pristine, as-new appearance for longer.*Based on external tests, compared to our standard cooktop surface without special treatment or coating.</p> |
|---|---|

DOUBLE THE FLEX AND FLAVOUR

DoubleBridge means this cooktop has two Bridge zones, one on each side, which allows you to join cooking areas together in order to fit large pots or long pans. Sharing the same temperature and time setting, the linked zones are ideal when you're experimenting with a plancha or fish kettle.

MORE EFFICIENT CLEANING

Maintain an immaculate surface effortlessly with the anti-fingerprint matte finish. This unique ceramic glass treatment resists marks during everyday cooking. Simply wipe the cooktop with a damp cloth to restore a streak-free appearance with ease.*Based on external tests, compared to our standard cooktop surface without special treatment or coating.

Hob2Hood

Leave Hob2Hood to regulate the fan while you concentrate on the key moments involved in getting your dish just right. It will automatically control your rangehood's fan and lights.

INSTANT BOIL

No more waiting around for pots to boil. PowerBoost provides an instant burst of heat that boils water in under 90 seconds, even faster than an electric kettle. Its perfect for high-heat tasks like boiling potatoes or searing steak.

INTUITIVE, CONTINUOUS COOKING

Keep your cooking on course with Heat Memory. If the pot is lifted from the hob, or if spills occur, the intuitive user interface retains your current heat settings for 120 seconds, preventing the need to reset power. With Heat Memory, precise heat is continuously maintained to help create memorable meals.

WHY NOT HIT PAUSE

The pause function is useful if your cooking is interrupted. At the touch of a button all cooking zones will be reduced to the lowest heat setting to ensure dishes stay warm, but don't overcook.

Specifications

PRODUCT PROFILE

| | |
|---------------------------------|-------------|
| Domestic warranty details (yrs) | 5 |
| Cooktop type | induction |
| Materials/Colour | matte black |

DIMENSIONS

| | |
