Bottle Trap
3806000801 — Chrome
6 finishes available

Please note

- Bottle Trap to be connected to a 40mm basin waste.
- The outlet connection of the Bottle Trap is designed to connect to 40mm DWV pipe.
- The pipe should be cut square and chamfered/deburred.
- Apply a lubricant (O-ring lubricant or similar) to the 40mm DWV pipe and the Kee Seal to achieve an easy fit.
- Tighten all compression nuts and water test to ensure there are no leaks.
- Rogerseller recommends having the product on site before commencing rough in.
