LED lighting			

BENEFITS

LIFT GENTLE TO A NEW LEVEL Our ComfortLift dishwasher lets you gently slide and lift the lower basked upwards. With a dishwasher designed around your needs, you can load and unload more efficiently and stack more effectively. With ComfortLift we've elevated dishwashing to a whole new level.	DARE TO USE EVERY KITCHEN TOOL The MaxiFlex drawer is designed to fit cutlery and utensils of all shapes and sizes. Its increased depth offers greater capacity in each load. Whether large or awkwardly-shaped, the customisable dividers and deep drawer mean everything can be loaded with ease
REACH EVERY CORNER The ProClean powerful, double rotating satellite spray arm, with 5 spray levels, sprays from continuously varying angles ensuring maximum water coverage over your entire load for an immaculate wash result.	ALWAYS GENTLE ON YOUR DISHES With ComfortRails you can smoothly slide the basket into place without any rattle of the dishes meaning you never have to worry about damaged glasses again. Always smooth to load and unload.

THE DOOR TO AUTOMATIC DRYING

Our AirDry technology lets you maximise your drying performance with natural airflow. The door automatically opens up to 10cm when the cycle is complete. It dries your dishes naturally meaning spotless, cared for glasses every time.

IMPROVE WASHING RESULTS

ExtraPower function improves the washing results of the selected program. The extra boost in wash temperature and duration rids stubborn stains from your kitchenware with immaculate results.

GENTLE CARE FOR YOUR GLASSWARE

The unique SoftGrip feature ensures that the stem and foot of every glass are held gently but firmly in exactly the right position throughout the duration of the program. Protected from vibration. Removing the risk of breakages. And with SoftSpikes you no longer need to spend time handwashing delicate glasses. The soft material gently holds glasses securely in place and protects them from cracks and breakage.

HIGH PERFORMANCE. LOW ENERGY.

By selecting the EcoProgram you can rest assured that your dishes will be cleaned using the lowest possible amount of energy and water for the load, without compromising on wash performance.

OPTIMISE TIME, ENERGY & WATER.

AutoSense detects the soil level and load size and adjusts settings accordingly to deliver an optimised wash program for the load. This delivers incredible cleaning performance, whilst in turn, its more efficient on energy, water, and time.

ALWAYS STAY UPDATED

TimeBeam projects a countdown to the end of the program or the countdown of the delay start onto the floor below the dishwasher so that you can easily see how much time is left before unloading.

CLEAN DISHES ON YOUR SCHEDULE

The 24-hour delay start function lets you load your dishwasher and program it to start at the time that suits your schedule.

Specifications

PRODUCT PROFILE

Domestic warranty details (yrs)	5
Type of Dishwashers	fully integrated
Place settings	14
Drying system	AirDry
