WashSmart™ Eco 7.5kg

This 7.5kg washer with Eco-Active™ technology is the most energy efficient top loading washer in Australia and New Zealand with the fastest spin of any top loader under 10kg at a quick drying 1100rpm. The SmartTouch™ controls, soft close ABS lid and flexible finned agitator for less tangling make this an easy to use machine. Self-levelling rear feet make installation simple. Designed to match Fisher & Paykel vented or condenser dryers.

Features & Benefits

**What is SmartDrive™?**  
Fisher & Paykel SmartDrive™ machines are made of just three main parts: a small computer, a flexible agitator, and a simple direct-drive motor. This means washing machines that can sense each load, use less water and run with less moving parts.

**SmartTouch™ Controls**  
Fisher & Paykel's SmartTouch™ Controls access SmartDrive™ technology through six cycles: Regular, Heavy, Delicate, Wool, Allergy and Quick.

**Easy Installation**  
Self-levelling feet make installation easy and ensure the washing machine stays level. This minimises out-of-balance issues and vibration, which keeps noise levels to a minimum.

**Flexible Finned Agitator**  
Fisher & Paykel's flexible finned agitators ensure less tangling and provide great clothes care.

**Eco-Active™ Wash Technology**  
The most energy-efficient top loaders in Australia and New Zealand, CleanSmart™, FabricSmart™, and WashSmart™ Eco Washing Machines all have Eco-Active™ Wash Technology, giving them an impressive 4-star energy rating so you save on power bills.

**Faster Spin, Quicker Drying**  
Our fast spin speed enabled by unique SmartDrive™ technology efficiently removes excess water, reducing overall drying time for optimal clothes care. Our top loaders spin up to 1100rpm faster than most other top-loading washers under 10kg.

Specifications

<b>Capacity</b>	
Total capacity	7.5 kg
