RRP AUS \$16,000.00

Product Details

FEATURES

Double glazed door, with anti-UV glass

Security Lock

Digital temperature display

Shelf-mounted LED display lights

Thermal recycling pump

BENEFITS

Walk In

A Walk-In cellar is the modern and technological equivalent of an underground cellar. Not only does it recreate the perfect cellaring conditions for large collections, but true connoisseurs will also rediscover the special and unique feeling which is to walk into ones treasured cellar.

Made in France

Handmade in France from quality materials and thoroughly inspected at all stages of production. Our cabinets are designed to protect your wines against all external influences, while allowing them to mature under optimal conditions.

Stable Temperature

Our wine cabinets maintain a stable temperature to keep your wine in perfect cellaring conditions. This is thanks to its double glazed anti-UV doors, insulated side panels and interactions between a compressor and thermostat.

Humidity above 50%

Our wine cabinets incorporate a Thermal Recycling Pump that ensures adequate humidity levels are maintained. The Thermal Recycling Pump works by heating condensed water, which is then introduced as humid air within the cabinet.

Vibration Reduction System

To protect the storage life and quality of your wine, our cabinets have been designed to create a vibration proof environment by including an externally housed compressor, rubber shock absorbers and vibration absorbing wooden shelves.

Specifications

WINE CELLARS

Domestic Warranty	2
Installation Type	Walk In
Finish	Painted Black Aluminium
Door Type	Glass Door
Door Construction	Double Glazed, UV Treated
Fridge door opening	Right
Refrigerant	R134a
