Wall Basin Set
3606017101 — Chrome

Other finishes available

Please note

- Secure the plumbing breach to a suitable noggin, take note of the finished wall dimension to ensure the breach is positioned correctly.
- The tapware must be installed square to the finished tile face to ensure the cover-plate sits flush.
- During rough-in always make sure a protective cover is left on to prevent damage to the product.
- Brazed connections should NOT be made with the tapware installed as excessive heat will damage the product.
- Supply pipe work must be flushed clean before installation.
- Full installation instructions come with the product.

Note: Breach to be supplied by installer
