OMNICHEF 7 IN 1 COOKING TECHNOLOGY

Reimagine what is possible to create in your SMEG OmniChef - the ultimate multi cooking experience. Combining a possible 7 cooking combinations with professional algorithms and an intuitive colour TFT screen, OmniChef is your most powerful companion in the kitchen. Microwave, full steam and traditional cooking can be used individually, in sequence or simultaneously to allow for everything from fast, simple cooking to push your cooking limits with more complex dishes.

SMART COOKING

Become an adventurous cook with over 150 auto programs. Nothing is too difficult to prepare and let the oven do the work for you. Hobby cooks can save 10 of their favourite recipes which can be called up at the touch of a button.

MULTI STEP

Set and forget cooking. Pre set up to three different steps before you start cooking to allow for utmost versatility to achieve the perfect finish.

SAME TIME COOKING

Coordinate everything being ready at the same time with same time cooking. Select up to three dishes all with different baking times and the oven will tell you when to add each dish, when the dish will be ready and how long left for your meal to be ready.

SMEG CONNECT

SMEG CONNECT brings Wi-Fi connectivity into the kitchen. Via SmegConnect App is possible to monitor and remotely control appliances through smartphone and tablet (iOS and Android).
