

ICON GUIDE

TOILET & LAVATORY

- EWATER+

Mists the wand, toilet bowl and the underneath of the seat with electrolyzed water, keeping them clean to reduce the need for harsh chemicals.
- CEFIONTECT

Ultra-smooth ceramic glaze leaves nowhere for waste to cling.
- PREMIST

A film of water keeps waste from clinging onto the toilet bowl.
- TORNADO FLUSH

360° cleaning power reaches every spot using less water.
- RIMLESS

The RIMLESS design not only leaves no place for waste and germs to hide, it's also much easier to clean.
- AIR-IN WONDER-WAVE

The precise, pleasant, air rich stream keeps you clean. And it's always pleasantly warm.
- LINEARCERAM

Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.

COMFORT TECHNOLOGY

- AUTO FUNCTIONS

Product featuring integrated and automated sensor-activated functions.
- HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.
- DEODORIZER

Highly- effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.
- WARM AIR DRYING

The individually adjustable dryer follows the warm water spray to ensure a dry, clean overall feeling.

FAUCET

- SOFT FLOW

Elegant streams of water gently touch skin. A premium calming experience. Soft and soothing.

BATH TUB

- ZERO DIMENSION

ZERO DIMENSION bathing offers freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.
- HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

DESIGN AWARDS

The Red Dot is an award for high-quality design an international jury only awards this sought-after seal of quality to products that feature outstanding design

The iF DESIGN AWARD has long been a symbol of excellent form and aesthetic quality, as well as user-focused, ergonomic and efficient design in all disciplines among companies around the world

Visionary technology.
Exquisitely designed for
comfort and well-being.

Born of science and our belief
in everyday wellness to
rejuvenate body and mind.

CLEAN TECHNOLOGY

Ensuring lasting cleanliness
for your peace of mind

CLEAN SYNERGY

EWATER+  for BOWL

Suppresses the accumulation of waste on the toilet bowl.
Electrolyzed water reduces waste and dirt you can't see.

EWATER+

WASHES THE TOILET BOWL, WHERE WASTE TENDS TO
ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ leaves microscopic waste no place
to hide and provides everyday peace of mind.

Without EWATER+

With EWATER+

How EWATER+ Cleans

PREMIST, a fine mist of
water is sprayed inside
the toilet

Before use

Since waste is less
able to adhere to a
wet surface, it is more
easily washed away

During use

EWATER+ is applied to
wash the wand and toilet
bowl and remove waste

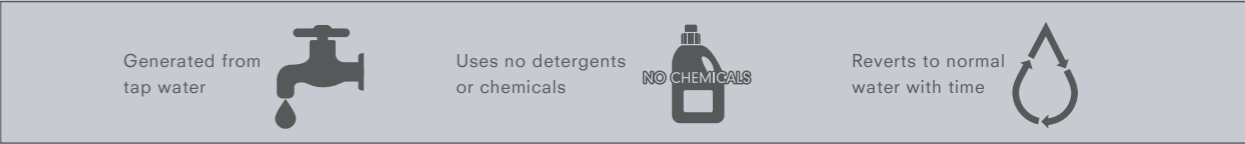

After use

EWATER+ automatically
sprayed 8 hours after the
last use

During standby

CLEAN SYNERGY

EWATER+ for WAND

Suppresses the accumulation of waste on the wand.
The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.

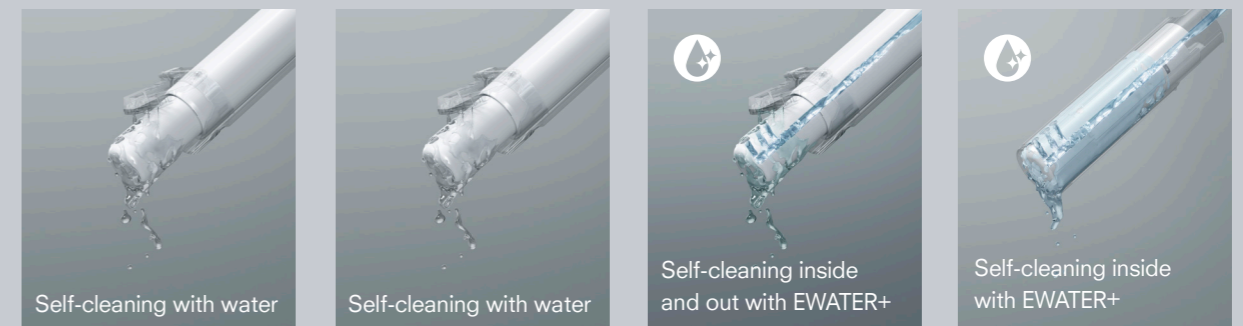

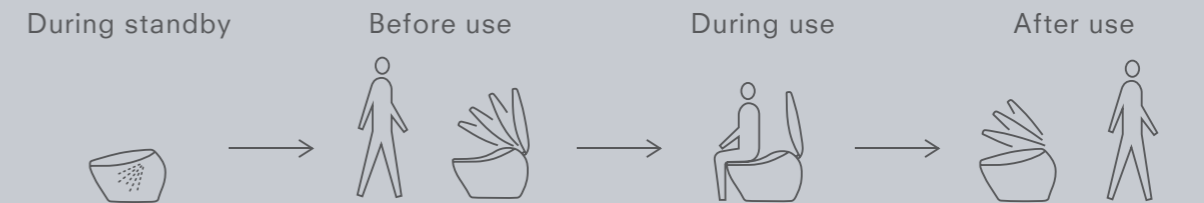

EWATER+

AFTER EACH USE,
THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside the wand as well as all around the exterior.
Even when the toilet is not being used, the wand periodically washes itself to ensure constant clean conditions.

Self-Cleaning Mechanism

Always Keeping Conditions Clean

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self cleaning, you will appreciate how easily you can reach it and wipe it spotless.

CLEAN SYNERGY

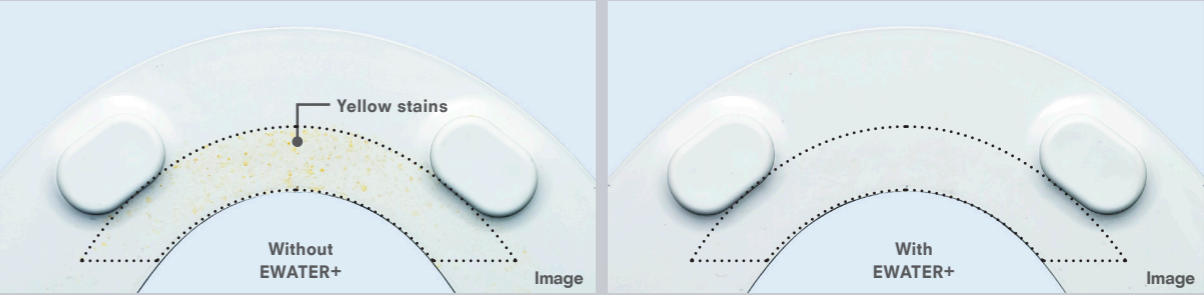

EWATER+  for UNDER SEAT

EWATER+ suppresses hard-to-see waste underneath the toilet seat.

EWATER+

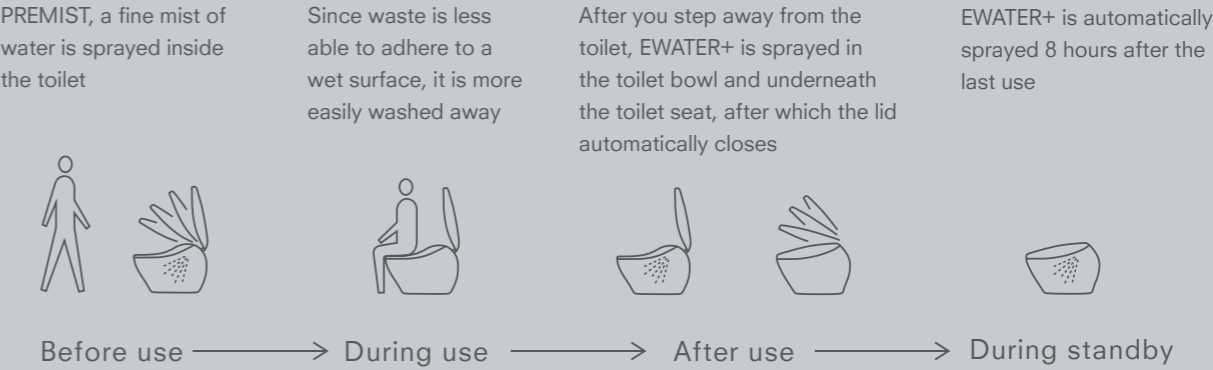

EWATER+ IS SPRAYED ON THE EASILY FOULED FRONT SECTION OF THE BACKSIDE OF THE TOILET SEAT.

This helps suppress urine and other waste from becoming yellow stains, for long-lasting cleanliness. A quick manual spray before cleaning allows you to remove waste with a light wipe.

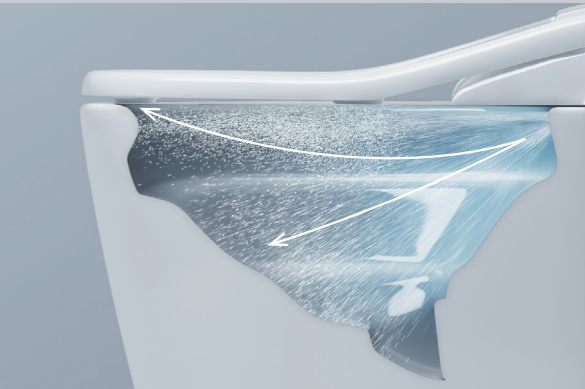

Survey: Evaluation of waste on the front section of the backside of the toilet seat with and without use of EWATER+
Usage conditions: A number of uses equivalent to usage for two weeks by a family of four (without cleaning)
*Results vary according to usage and environmental conditions. All data collected by TOTO. The dotted lines in the figure show the area over with EWATER+ is sprayed.

How EWATER+ Cleans

EWATER+ reaches underneath the toilet seat.

EWATER+ is sprayed throughout the toilet bowl, with large droplets covering the bowl surface and small droplets carried by air currents reaching the front section of the backside of the toilet seat

CLEAN SYNERGY

CEFIONTECT

PREMIST

Forces waste to slide down.

Prevents waste from clinging.

Ultra-smooth ceramic leaves
nowhere for waste to cling.

A film of water keeps waste
from clinging onto the toilet bowl.

CEFIONTECT

IS AN ULTRA SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

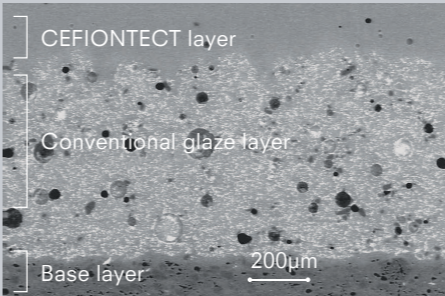

Eliminating the microscopic gaps
where waste hides

Conventional ceramic may appear perfectly smooth to the eye, but it has gaps where waste particles can hide. At just one millionth of a millimeter, CEFIONTECT's surface ridges are much tinier than waste particles.

What makes CEFIONTECT so durable?

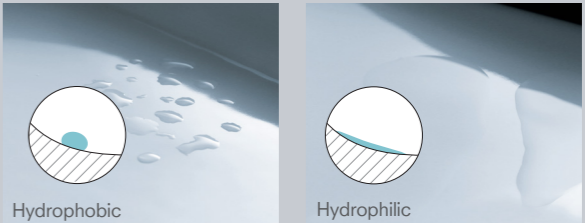

A glass layer is burned over the conventional glaze layer, making CEFIONTECT an extremely durable material.

CEFIONTECT toilet micrograph *1Qm=0.001mm

Water has a strong affinity to CEFIONTECT

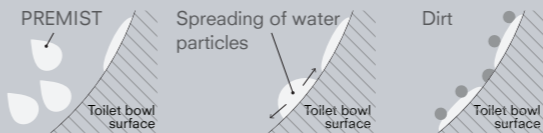

Hydrophilic describes organisms and materials that attract water. CEFIONTECT is hydrophilic. Water spreads easily over the toilet bowl, so waste particles easily wash away.

PREMIST

To ensure waste washes away easily,
a film of water keeps waste
from clinging onto the toilet bowl.

PREMIST automatically sprays water over the surface
of the inner toilet bowl before every use.
Due to the ceramic's hydrophilic nature,
waste washes away more easily.

CLEAN SYNERGY

**TORNADO
FLUSH**

RIMLESS

Swirls and ejects waste entirely

360° cleaning power reaches every spot using less water.

TORNADO FLUSH

NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY
USING LESS WATER.

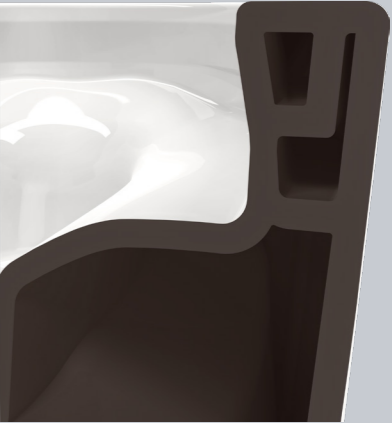

Powerful streams of water merge and swirl 360 degrees,
washing every spot inside the RIMLESS toilet bowl.

Powerful washing where waste can easily accumulate

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl,
travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses
the areas where waste accumulates most easily to wash the entire bowl clean.
The exquisitely-designed, high-quality ceramic bowl makes this innovative design possible.

RIMLESS

The RIMLESS design not only leaves no place
for waste to hide, it also makes it much easier
to clean the toilet.

CLEANSING TECHNOLOGY

Supporting your health and wellness
with a new type of clean

AIR-IN WONDER-WAVE

The precise, pleasant, air rich stream keeps you clean.
And it's always pleasantly warm.

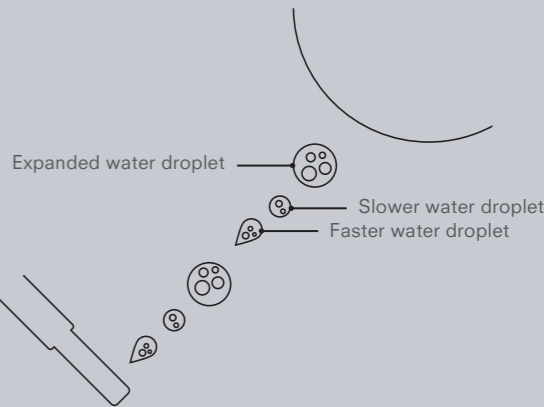

AIR-IN WONDER-WAVE

AIR RICH WATER DROPLETS TO PRODUCE A MORE COMFORTABLE WASHING SENSATION AND DELIVER MORE THOROUGH CLEANSING WITH LESS WATER CONSUMPTION.

Even more, water is warmed instantly as needed, so you need never worry about running out of warm water.

How AIR-IN WONDER-WAVE works

AIR-IN WONDER-WAVE technology is a precise and pleasant air-rich stream that keeps you clean. As water droplets are fired at different speeds, small droplets collide with larger ones, combining and expanding as they fill with more air. The injection of air enlarges the water droplets by approximately 30%

Select the type of cleansing you desire.

NEOREST® NX2, NX1, LE, AH and RH Remote Control

REAR CLEANSING

Large air-filled water droplets provide a comfortable sensation and complete cleansing with minimal water use.

SOFT REAR CLEANSING

Plentiful showers of water provide a gentle sensation and complete cleansing over a wide area.

FRONT CLEANSING

A gentle dispersion of large water droplets ensures intimate cleansing in the most comforting way.

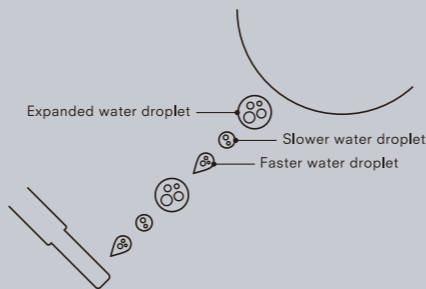

WIDE FRONT CLEANSING

Showers of small water droplets reach a wide area, ensuring a gentle sensation for sensitive skin.

CLEANSING SPRAY PATTERNS

HOW AIR-IN WONDER-WAVE WORK

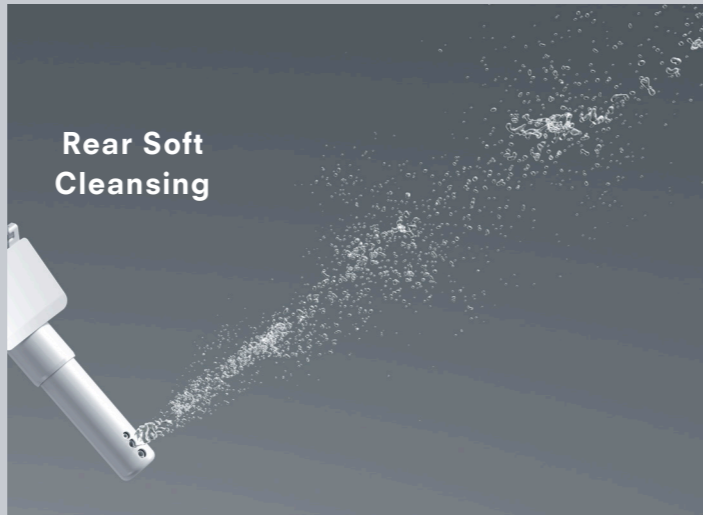

As water is fired at different speeds, small droplets collide with larger ones, combing and expanding as the droplets fill with more air. The injection of air enlarges water droplet by around 30%

**Rear
Cleansing**

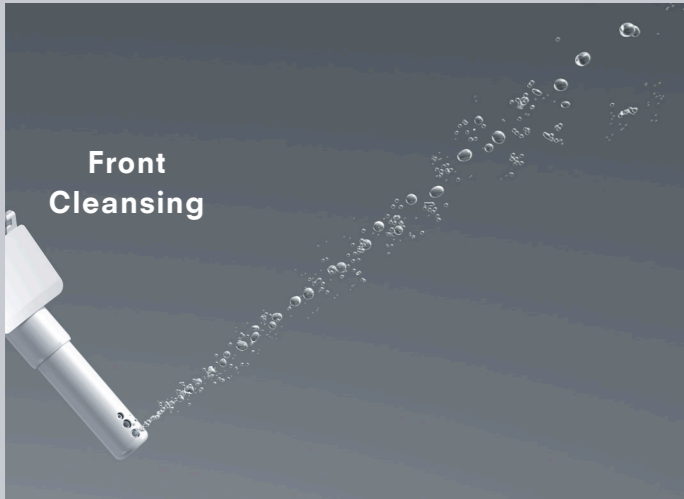

Large air-filled water droplets offer complete cleansing and a comfortable sensation with minimal water use.

**Rear Soft
Cleansing**

Plentiful shower of water gives a gentle sensation for complete cleansing over a wider area.

**Front
Cleansing**

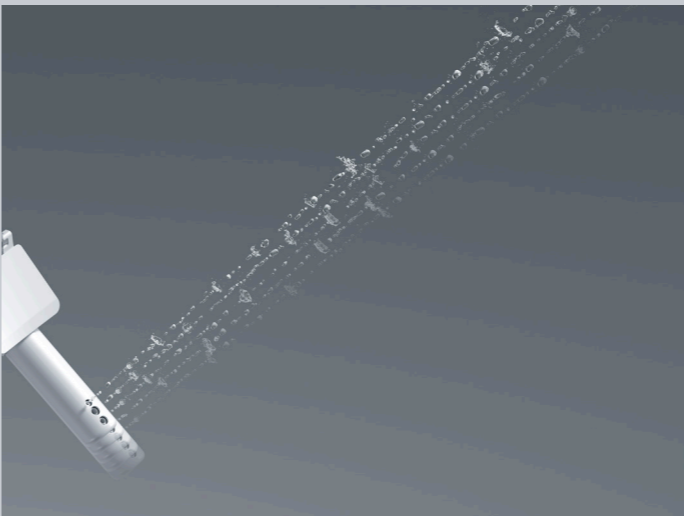

Gentle dispersion of large water droplets ensure intimate cleansing in the most comforting way

**Wide Front
Cleansing**

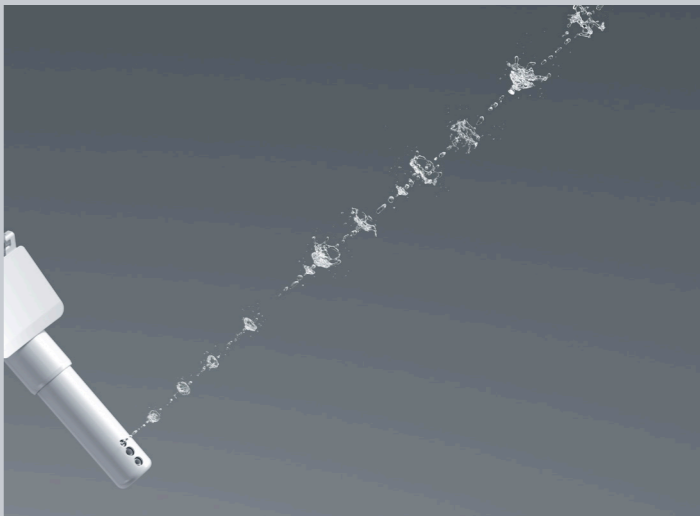

Shower of small water droplets reaches a wider area giving a gentle coddling sensation to sensitive skin.

Oscillating Cleansing

The back-and-forth movement of the wand ensures thorough cleansing of the entire area.

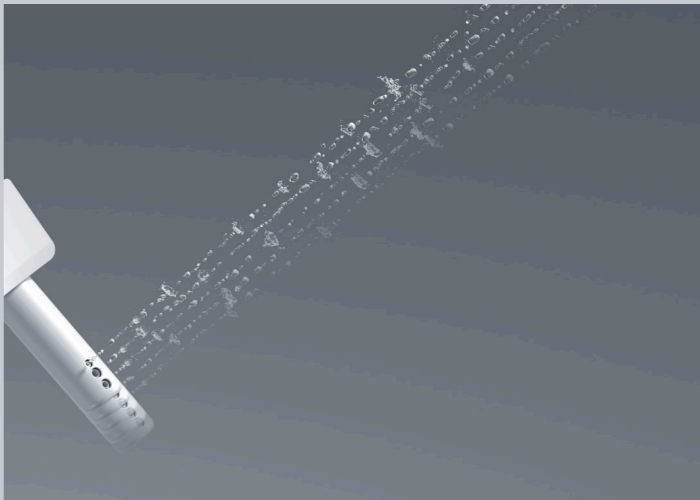

Pulsating Cleansing

Rhythmically pulsating stream of cleansing warm water.

Wand Position Adjustment

You can easily set the wand position according to your preference.

Wand Pressure Adjustment

Select from five levels of water pressure

COMFORT TECHNOLOGY

Pursuing comfort to enrich everyday living
for you and your loved ones

COMFORT TECHNOLOGY

COMFORT TECHNOLOGY

For greater performance and hygiene in the bathroom

AUTO OPEN / CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

SOFT LIGHT

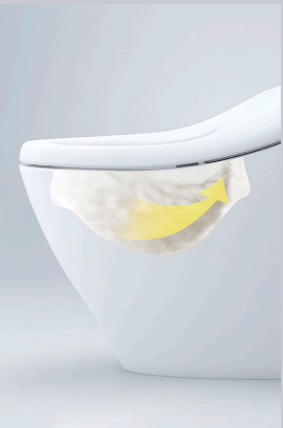

Subdued lighting switches on when the toilet is approached, so users don't have to be exposed to bright bathroom lights at night.

HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.

DEODORIZER

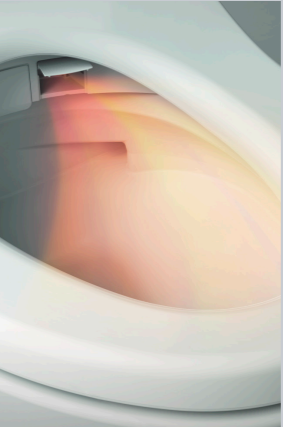

Highly-effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.

AUTO FLUSH

No need to touch buttons or the handle and never worry about someone forgetting to flush — it's automatic after each use.

WARM AIR DRYING

Enjoy the ease and comfort of the temperature-adjustable warm-air dryer.

SUSTAINABILITY

Ultra-powerful water conservation.
Flushes waste completely
every time — no matter where
the toilet is located.

HYBRID ECOLOGY SYSTEM

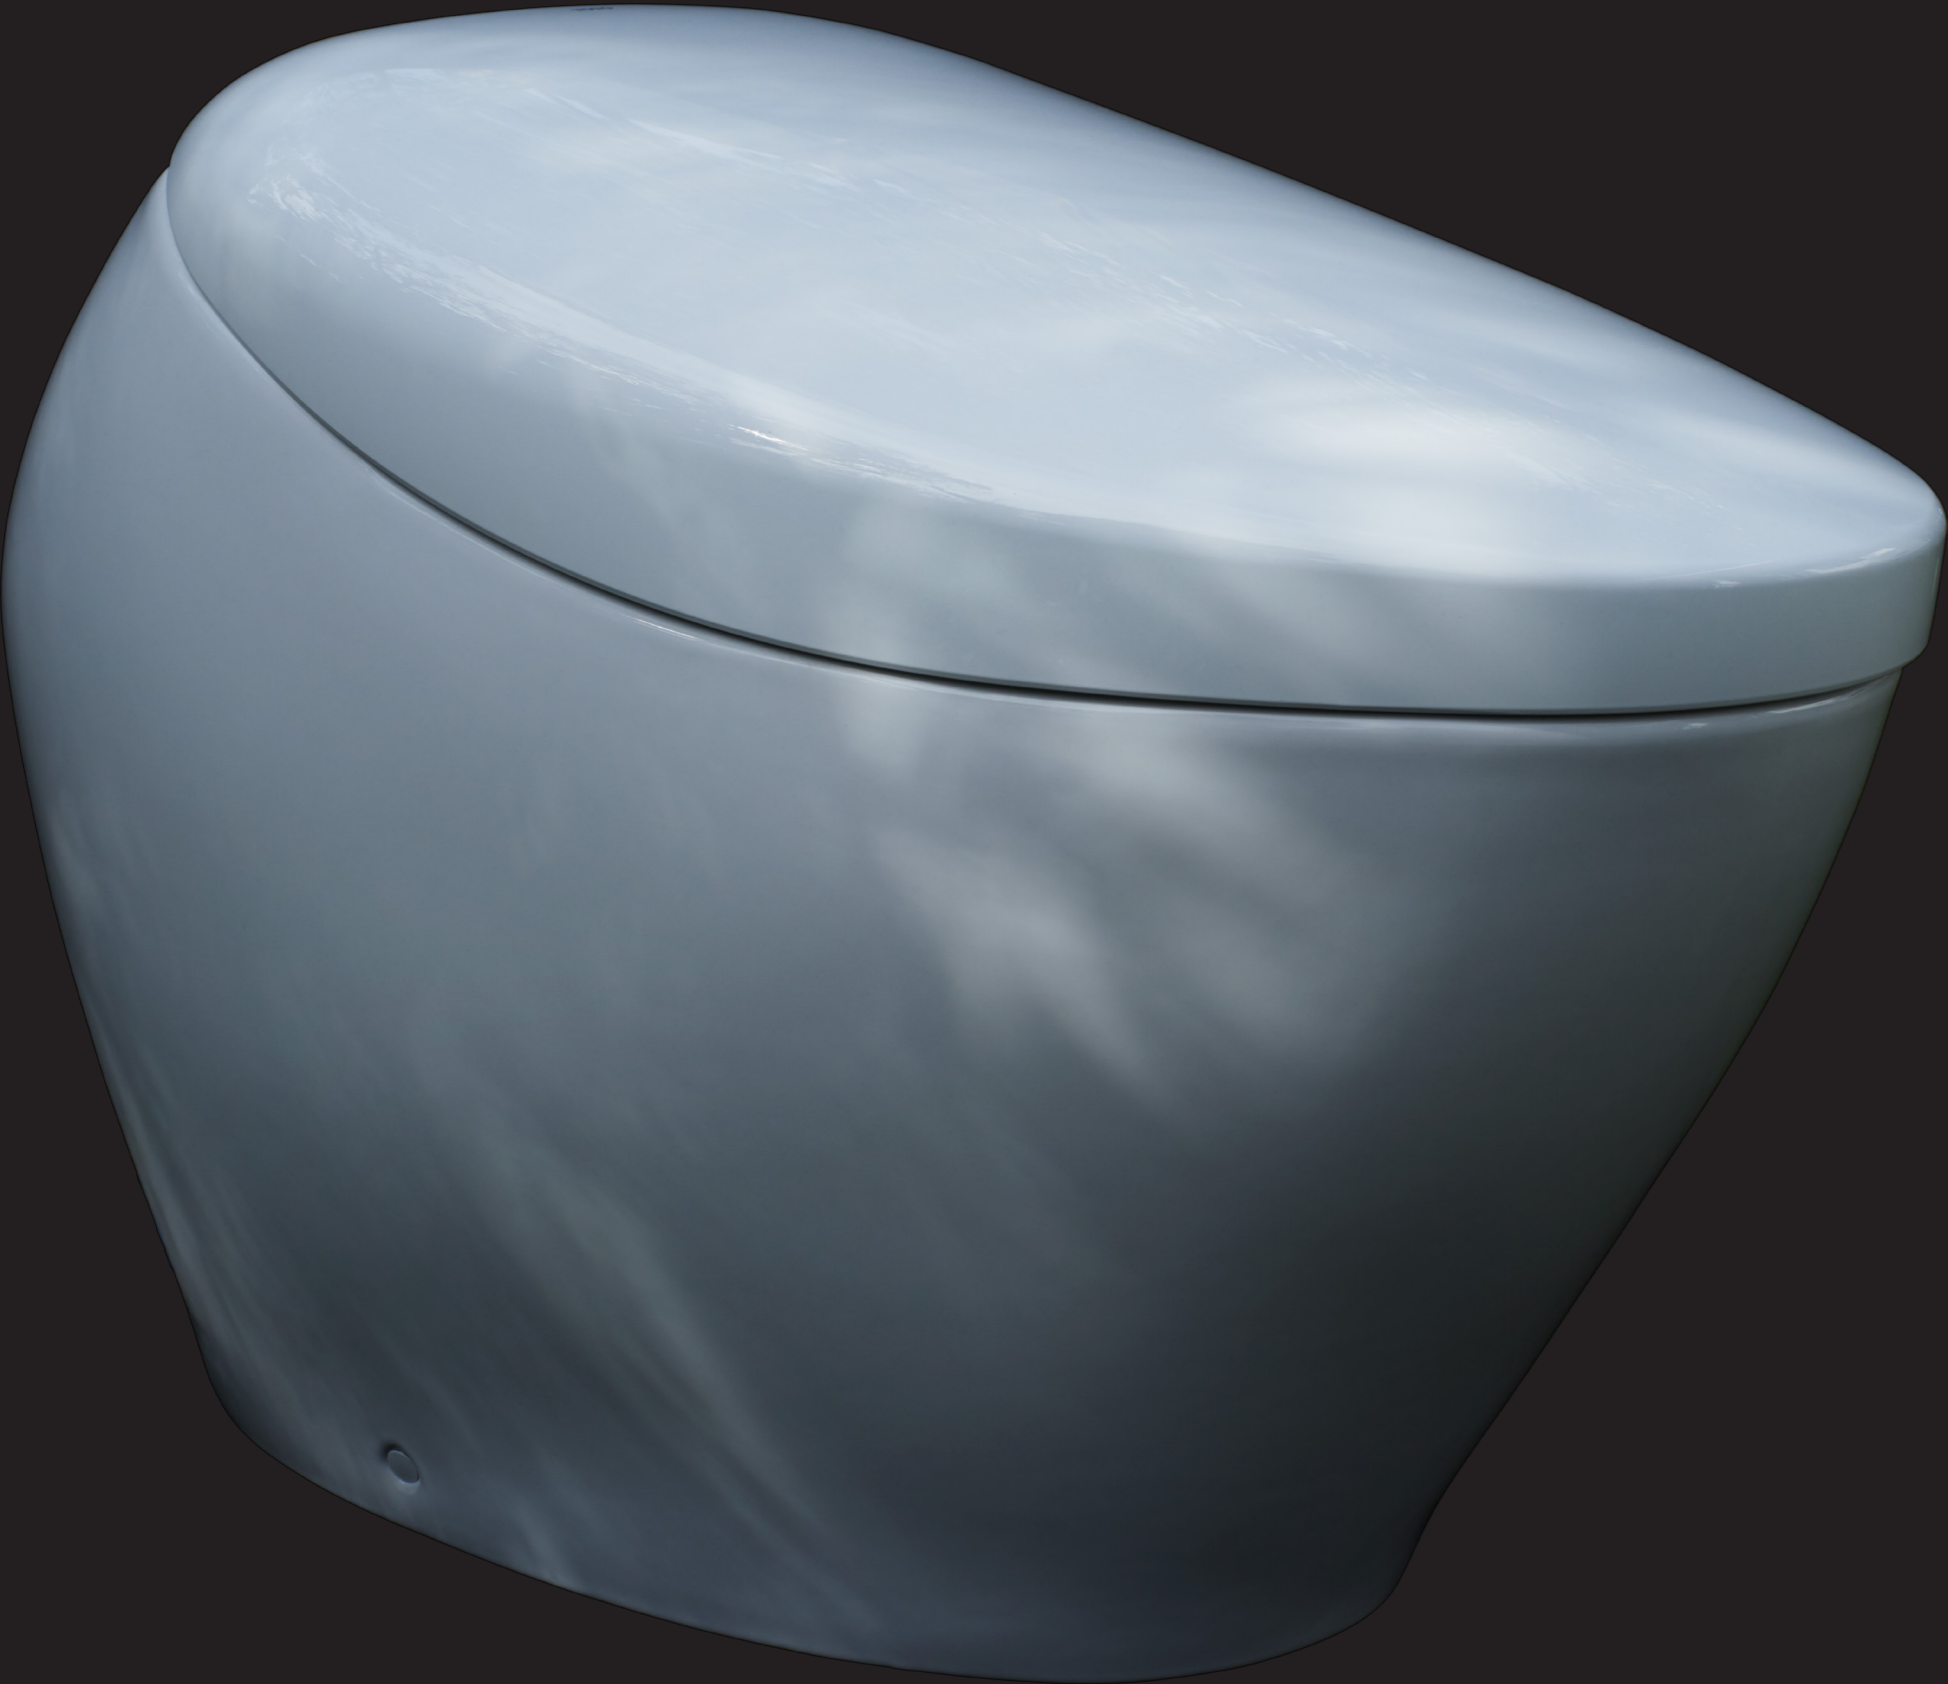

HYBRID ECOLOGY SYSTEM combines two innovative water streams—one from the plumbing system and one from a small tank inside the toilet—to maximize flushing efficiency. Using minimal water, **HYBRID ECOLOGY SYSTEM** is so effective at removing waste that a second flush is never required. What's more, the flushing power remains strong regardless of how high up in a building the toilet is located.

**CLEAN SYNERGY** means eco-friendly

CLEAN SYNERGY technologies offer a sustainable way to maintain sanitary conditions inside your toilet. Since waste does not accumulate and create stains, there is less need for manual cleaning with detergents.

**Sustainable cleaning**

WASHLET sprays the non-porous ceramic bowl with **EWATER+**, to help prevent the buildup of microscopic waste. Free of chemicals and cleaning agents, **EWATER+** returns to the water cycle as pure H_2O .

HOW THE REMOTE CONTROL WORKS

Easy and Convenient to Use.

NEOREST® NX, LS, WX and AS models

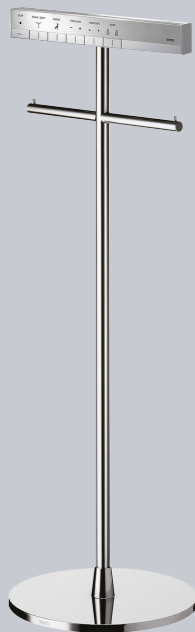

- ① **Full flush** Performs a full flush.
- ② **Light flush** Performs a light flush.
- ③ **Wand clean** Cleans the wand with “EWATER+”.
- ④ **Personal setting lock** Store your preferred “Water pressure”, “Wand position” and “Warm water temperature” settings.
- ⑤ **Opening and closing the toilet seat** Opens and closes the toilet seat.
- ⑥ **Opening and closing the toilet lid** Opens and closes the toilet lid.
- ⑦ **Stopping** Stops operation.
- ⑧ **Rear cleansing** Cleanses your rear.
- ⑨ **Soft rear cleansing** Cleanses your rear with a soft, embracing water flow.
- ⑩ **Front cleansing** Serves as a bidet for ladies.
- ⑪ **Wide front cleansing** Gently cleanses a wide area.
- ⑫ **Water pressure adjustment** You can make a selection from 5 different water pressure levels.
- ⑬ **Wand position adjustment** You can make a selection from 5 different wand position levels.
- ⑭ **Warm air drying** Dries your rear.
- ⑮ **Oscillate** The wand moves back and forth for a thorough cleanse.
- Pulsate** Water pressure alternates between soft and strong for a massage effect.
