Fizz up your day with clean Sparkling Water and add some flavour to your bubbles.

4 **NESPRESSO COFFEE**
POD COMPATIBLE

Your morning ritual starts here. Create your personally brewed coffee with one touch.

5 **CONVENIENT**
HOT WATER

Prefer a cup of tea? In 30 seconds you will have the perfect tempered water.

Fontanella is a compact multi functional appliance combining an espresso coffee maker and a water filtration system all in one producing ambient, chilled and hot water as well as sparkling water.

Fontanella [my drinking fountain] has been designed and engineered in Italy by Rosario Interdonato who comes from three generations of developing and providing water filtration systems in Italy.

WATER IS LIFE, AND CLEAN WATER MEANS HEALTH

AUDREY HEPBURN

MyHealth. Water is essential for clean, healthy living and filtered water is the healthiest, environmentally friendly choice for you and your family.

The Fontanella BioFilter, made by filtration leaders *Intertek*, cleans harmful impurities and contaminants with a degree of 0.5 microns.

Not only filtered water promotes a healthy lifestyle, it also tastes great. A crisp, fresh taste, you will never go back.

ENVIRONMENTALLY SUSTAINABLE

MyPlanet. Reducing our carbon foot print to care for this fragile environment is as important as ever. This all-in-one refreshment fountain significantly reduces the amount of appliances needed in an everyday household or office. Not only decreasing the amount of plastics and non-recyclable materials going into landfill, but also reducing the amount of energy needed to power all 5 appliances.

Another benefit is the reduction of single use plastic bottles. One million plastic bottles are bought every minute around the globe and half end up in landfill, taking 1000 years to breakdown. The bottles that end up in landfill create piles of toxic waste which then seeps into the soil and our rivers and oceans.

Now you can quickly and easily refill your BPA-free reusable bottle with healthy, filtered chilled water and take it on the go. Eliminating unnecessary ecological damage.

THE CULTURE OF SHARING

MyGathering. A break is as good as a holiday and gathering around the water cooler has been an age old tradition that has given us respite from the everyday grind. Having a refreshing break allows us time to process our thoughts and pace ourselves to be more effective for longer periods of time. It also gives us time to connect and share with our fellow colleagues and friends, creating a strong sense of community.

EVERYTHING YOU NEED

We want you to experience the convenient benefits of the all-in-one refreshment fountain as soon as possible. The team at MyFontanella have cleverly packaged everything you need to brew the perfect coffee or mix your very own flavored sparkling creation within minutes of un-boxing. What's in the box:

- BPA free reusable soda bottle
- Syringe/applicator
- Intertek Water Biofilter
- Milk frother
- CO² Canister

We also provide a 1 year peace-of-mind warranty, Australian customer service and local parts and maintenance that can be ordered and booked at:
