

Cuvée Pomerol

Our Cuvée built-in wine coolers offer 2 sizes, so you're sure to find the perfect built-in wine cooler to accommodate your wine collection no matter how large or small. Before choosing a built-in wine cooler, it's best to assess the space available in your kitchen so you can choose an appropriately sized unit. It's also best to consider the bottle capacity of the wine cooler - whether the wine fridge will accommodate your wine collection. Built-in wine coolers can be built into kitchens with minimal space without issues as the fans are located at the bottom of the unit, meaning not much space is needed around the unit during installation
