## Dimensions

Depth	577mm
Height	598mm
Width	597mm

## Features & Benefits

### Multi-function Flexibility

With 11 different functions including Roast, Pastry Bake and Fan Forced, you're able to employ whichever cooking style suits you in this generously sized built-in oven.

### Black goes with everything

As much a multi-function oven as a design component, the black built-in oven enhances your kitchen design without dominating it. It's understated and elegant whether on its own or part of a matching appliance set.

### Generous capacity

Designed for multi-shelf cooking, this is one of the largest built-in ovens on the market, providing a 90 litre total capacity. The higher internal cavity allows you to fit a large casserole dish, the family roast and a pie for dessert.

### Perfect results

Our built-in ovens feature ActiveVent technology for optimised moisture levels, and AeroTech for even heat distribution. Get perfect results even when you're using multiple shelves.

### CoolTouch door

The CoolTouch door features triple glazing and a cooling system, ensuring it's safe to touch from the outside - protecting both your hands, and the surrounding cabinetry.

### Pyrolytic self-cleaning

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

## Specifications

### Accessories

Flat brushed baking tray	•
Flat wire shelf	•
Food probe	•
