## Dimensions

Depth	639mm
Height	<sup>A</sup> 1270
Width	<sup>B</sup> 595mm

## Features & Benefits

**Total control**  
Maintaining the perfect environment for your red and white wines is easy with dual zones in your wine cabinet. The control panel gives you the ability to set each zone to between 5°C and 20°C and to adjust LED lighting and fans.

**Designed to match**  
Our wine cabinets are designed to match the Fisher & Paykel family of products with stylish brushed stainless steel and glass doors which complement any kitchen.

**Storage perfected**  
The fan helps circulate air inside your wine cabinet while oak shelves and a low vibration compressor ensure optimal storage. The UV tempered glass door reduces the risk of external light affecting your wine.

**Complete visibility**  
Your wine collection is always on display through UV tempered glass with a demist function and LED lighting. Bottles nestle on stylish oak slide out shelves and a top shelf tilts so you can showcase your favourite wines.
